

WELCOME TO EASY BILLING, INC.

Easy Billing Professional has been established since 1994 as a leading-edge medical billing software program. Our billing software is designed and has been enhanced over the years to keep up with the changes in Pathology billing. Easy Billing Professional is loaded with features specific to the needs of Independent and Anatomic Pathology Labs using Pathology LIS software as well as those doing Clinical Billing. Easy Billing Professional was designed to be user friendly and is robust enough to handle the billing needs for other medical industries.

We began by catering to many medical and healthcare industries, then we teamed up with AP Easy a Pathology LIS software system. In the last 20 years Easy Billing Professional, has been fine tuned to integrate with not only the AP Easy LIS, but other LIS software as well. Easy Billing Pro is a robust program offering end users speed and accuracy in claim submission, in processing payments and in sending out patient statements. It is an easy to use, powerful, accurate and efficient medical billing software.

Easy Billing can dovetail seamlessly with an existing cloud-based platform, ensuring smooth integration and a streamlined workflow. We take pride in remaining current with industry changes. We include ICD-10 coding and simple electronic submission of claims, and easily receive and track electronic payments from carriers.

We have always remained committed to excellence. Let us show you the amazing report engine we offer, allowing you to customize search categories and create custom forms. We have many quick reports getting you the data you need to work claims easily and efficiently. We offer an option for custom reports with Exports for your Excel Templates, CSS, SQL and HTML. (charges do apply).
