Find your extreme side with Iguana Mama. Enjoy a series of spectacular waterfalls with the rain forest canopy above you and azure water below you'll feel your senses come alive as you experience nature's perfect water parks.

Full 27 Falls of Damajagua (Salatos Damajagua)

Cascading. The original and best known of the area's falls. Starts with a moderate hike of around 60 minutes that leads up to the top of the falls where the real fun begins as you jump, slide and swim your way back down to base camp, emerging with a silly grin on your face and memories to cherish!

After the tour enjoy an authentic Dominican lunch and local rum drinks before heading back to your hotel. Total river time approx. 2.5 hours. Jumps of up to 8m/25ft but don't worry, the big jumps all have walk arounds if you don't feel comfortable with the heights. Iguana Mama is the only tour company that goes all the way to No.27. Small groups with Iguana guides and no tourist traps ensure a quality experience. Important note: The name 27 "Waterfalls" is actually a mistranslation from the Spanish word "Charcos" that means pools not waterfalls, there are only in fact a total of around 12 actual waterfalls even on the full trip to number 27.
