PROPOSAL PROTOCOL

1. Initial Consultation

Call or email us to schedule a new landscape consultation for your property. One of our knowledgeable team members will meet with you to discuss your landscaping needs, budget and any specific problems, special projects or preferences.

We will conduct a walk-through of your property and any necessary assessments of your plant health, irrigation system, etc. in order to create the ideal landscape program for you.

2. Proposal

Following our preliminary meeting, our team will examine and evaluate your property's unique requirements to design a program of seasonal and routine services to best meet your needs.

All associated costs will be broken down and itemized for transparent cost analysis and budget adherence. We will fully detail all proposed services and responsibilities for your property, including recommended frequencies.

We will be happy to discuss with you our proposal, address any questions or concerns and make requested adjustments to best fit you needs.

3. Implementation

Upon approval and signature of your landscape proposal, we will meet with you to discuss a maintenance schedule to accommodate your requested day(s) and time.

Our dedicated team of landscape professionals will work to care for and maintain your property to the highest standards of our industry.

All work will be personally inspected and approved by our Quality Control Manager during routine visits. Upon request, we will submit to you all monthly reports and completed checklists for your property.
