Hello! Welcome to The Mother Felter! My name is

***Kelly, and I am the artist and creator of the needle
felted designs displayed throughout my website.***

***In 2016, I decided to embrace a different artistic and
creative side of my personality and began to explore
the world of needle felting. I have gathered
inspirations from many other talented***

***needle felting artists to create my own style. My
designs are the perfect accent for every holiday and
occasion, and the perfect element to enhance
everyday home decor and more. I love the feeling of
bringing my ideas and creations to life, and my hope
is that my creativity and work inspires others to see
the creative aspect that life has to offer.***

Inspirations from Sara Renzulli from Sarafina Fiberart, Marie Spalding from Living Felt, The Gentleman Felter, Reena Lee, The Lady Moth, Kyoshi Mino, Felt and Dandy and many more
