THE ENERGY CODES COACHING

The Energy Codes Coaching is a potent and profound coaching system using the principals and practices of Dr. Sue Morter's Energy Codes. When being coached in the program, you learn to live in a state of positivity and success in terms of what you desire in your life, versus focusing on your life problems and what is not working for you. You will learn processes that help you build the circuitry to experience yourself as the Soulful Self (your true essence that exist beyond your Mind) so that you live from you authentic, joyful self.

Based on the profound wisdom of Quantum and Traditional sciences, The Energy Codes will help you navigate challenging emotions, clear subconscious beliefs, and manifest your dreams so you can live from the space of creatorship and fulfillment. The goal of this coaching is to help you create a Quantum Flip, where you completely change your sense of identity and begin operating from the truer, eternal "you" rather than the performing or protective personality. Your life becomes nourished from the inside out-your health and relationships improve, you gain a greater sense of peace and trust, and you awaken to your true life's purpose.
