We do not provide material benefits (e.g. renewal or additional franchises) to you based on use of designed or approved suppliers.

Equipment, Inventory and Signs

All equipment and fixtures you use in connection with your Service Center must be of the types, brands and models that we reasonably determine meet industry standards as to quality, performance and safety. All signs that you purchase or lease must be of the types, brands and models which meet our standards and specifications. Your Service Center may use only uniforms, parts, labels, inventory and supplies that conform to our specifications and standards as to quality, performance, and safety and/or are

purchased from suppliers (which may include us and/or our affiliates). We and our affiliates have the right to profit from the sale of any other items for which we are approved suppliers.

From time to time, we may modify our specifications and standards for parts, uniforms, forms, labels and other inventory and supplies and the list of approved suppliers for them. After notice of a modification, you may not reorder any parts, uniforms forms, labels or other inventory and supplies that do not meet our then-current specifications and standards or reorder any of those items from any supplier who is no longer approved.

If you want to order on a regular basis any parts, uniforms, forms, labels and other inventory and suppliers from any supplier who we have not then approved, you must first submit to us sufficient information, specifications and samples concerning the supplier so that we can decide whether the supplier meets our approved supplier criteria. Standards for a product will be applied uniformly to all suppliers of the product. If you seek approval of a part offered by a supplier which has not been tested by an independent certified laboratory, we may charge reasonable fees to cover our costs of evaluating the supplier. Wisconsin Specific Franchise Law

With respect to franchise agreements governed by Wisconsin law, the following shall supersede any inconsistent provision:

The Wisconsin Fair Dealership Law applies to most franchise agreements in the state and prohibits termination, cancellation, nonrenewal or substantial change in the competitive circumstances of a dealership agreement without good cause. The Law further provides that 90 days' prior written notice of the proposed termination, etc. must be given to the dealer. The dealer has 60 days to cure the deficiency and if the deficiency is so cured the notice is void. The Wisconsin Fair Dealership Law, to the extent applicable, supersedes any provisions in the Franchise Agreement that are inconsistent with that Law. Wis. Stats. - 3. The Manager should make every effort not to allow employees to work through lunch.
- When taking a lunch break, every employee, including the manager must punch out even if they do not leave the building.

ABSENCES AND TARDINESS

One of the most descriptive acts on the part of any employee is that of absenteeism or tardiness. As such, excessive absenteeism and tardiness is

subject to discipline, up to and including termination. All employees are expected to be at their work location ready to start work at the beginning of their shift.

WHEN YOU ARE ABSENT OR TARDY

If it is necessary for you to be absent or tardy for any reason, you must, whenever possible, notify your Manager *ONE HOUR PRIOR TO YOUR STARTING TIME* as to the reason for and the anticipated duration of your absence or tardiness.

In the case of the opening shift, try to notify your manager the evening before, if possible. In case of extended illness, arrangements should be made to have your condition reported to the company so we know how you are progressing and when you expect to return to work.

Any employee absent without calling to notify their Manager of the absence will be considered a "no-call-no show". Employees who are twice absent as a "no call-no show" will be considered to have abandoned their job and employment will be terminated.

EMPLOYEE ACCIDENTS and INJURY Employee is responsible to report every work connected injury, no matter how slight, to the Manager.

Failure to complete the proper forms may cause the employee to lose insurance coverage to which he/she might otherwise be entitled.

Include:

- Who and what were involved.
- Exactly where and when did it happen?
- Who saw it occur?
- Was the employee using required safety equipment, glasses, gloves, etc?
- Was the employee performing his assigned work task?

ALCOHOL and DRUG USE

The problem of drug and alcohol use and abuse is becoming pervasive throughout society and must be addressed by all responsible people. Auto Select recognizes that the use and/or abuse of drugs and alcohol presents a serious threat to

safety and health and can have a negative effect on an individual's health, work, and personal life.

The purpose of this policy is to establish guidelines for ensuring a safe, drug, and alcohol-free working environment for all employees.

All employees are prohibited from engaging in the following conduct while on Auto Select premises or when taking part in any work-related activity:

- 1. Using or possessing alcohol.
- 2. Using or possessing controlled substances without doctor's authorization.
- 3. Have a measurable breath alcohol level.

It is also considered prohibited conduct for employees to refuse to submit to any test required under this policy. A "refusal to be tested" includes:

- 1. Fail to provide adequate breath or urine without a valid medical explanation; or
- Conduct that clearly obstructs the testing procedures.

Any employee who engages in prohibited conduct shall be subject to discipline action up to and including immediate termination.

EMPLOYEE DISCIPLINE

When an employee is not fulfilling the responsibilities of the position to which he/she is assigned, all reasonable steps should be taken to assure future compliance with company policies and procedures. Further, should the employee not comply, it is necessary to fully document, on a CORRECTIVE ACTION REPORT, their performance.

The philosophy of Auto Select is that discipline will be an instrument for learning. Whenever possible, discipline will be a tool for training and improved performance. However, employees failing to improve, comply with policies and procedures, or otherwise perform the essential functions of their job, will be subject to progressive levels of discipline, up to, and including, termination.

These steps are suggested in the discipline procedure. However, dependent upon the severity of the situation any and/or all of these suggested steps may be eliminated.

- 1. VERBAL WARNING
