- Your personal guide -

# General information

## Dear participants

Welcome to Basel! It is great to have you here for our SaferSkin training. This guide will provide you with the most essential information to help you make your stay as easy and comfortable as possible. We hope to hereby give you an insight into a life science aspect which goes beyond regulatory risk assessment. During the city tour we will dive into the history of the development of the chemical, pharmaceutical and life-science industry in the Basel area and explain how it is linked to local cultural aspects. With this, your stay should not only be a dry learning session but it should be an interactive guide to help you understand the essential aspects of what is needed to make our world a safer and more sustainable place. This guide includes:

1. A city map with all important locations on it which are important during your stay with us.
2. Information on how you can use public transport including a list of prices.
3. A hotel recommendation.
4. A Basel Dialect dictionary which might help you in some situations
5. A list of questions which you can try to solve during your stay.
