Bad Weather & Thunder Breaks

When severe thunderstorms or bad weather are spotted, our priority is the safety of our guests and staff.

- The Aquatic Supervisor or Head Guard will announce that severe thunderstorms are in the area and EVERYONE must exit the water immediately.
- This includes all boaters, swimmers, patrons standing on or near the Zipline & Wet Willy Towers, as well as anyone sitting near the water's edge.
- Lightning most frequently occurs within 10 miles of a thunderstorm, and patrons and staff will be notified to seek shelter when thunderstorms move within 10 miles or when thunder is heard.
- There is a 30-minute waiting period after each thunder is heard or lightning sighted before patrons and staff will be permitted back in or near the water.
- Lightning's behavior is random and unpredictable. We recommend a very conservative attitude towards it.

When in doubt, remember "When Thunder Roars, Go Indoors!"
