Comments/Instructions

Signature _____ Date _____

Considering custom furniture? We must be mindful of the type of sink you will be using and its dimensions to ensure it all works together.

- 1 Decide on your style of sink (Vessel or Countertop)
- 2 Decide on dimension of sink (length, depth, height)
- 3 Be mindful of basin position (center, left, right or trough) and drain location as this will impact how vanity drawers are set-up to prevent a conflict

Some guidelines below with reference to price list pages to help you decide which sink to choose for your custom vanity.

VESSEL SINK

Above (A) or Under-mount (U)

LAVATORY
