Hard track

Starting from the western end of Casuarina Sands Reserve Carpark, Stromlo, this walk takes you to Kambah Pool Recreation Area via the Murrumbidgee Discovery Track, following the river down south. This walk is filled with wildlife as the riverbed and the surrounding area is quite green considering the dried up areas around it. Expect to see kangaroos and wallabies along with some wombats. Feel free to stop and take in the scenery and have a peaceful little riverside picnic if you feel like it. As you pass through river oak and red string bark woodlands, don't forget to keep an eye out for Spider flowers. The track may become indistinguishable around some parts due to overgrowth, but the signage is very good and supported with distance markers. Although this can be impractical and boggling, it may make the journey feel more natural and unexplored. Just make sure you cover your legs to not get scratched. Keep in mind that this walk can be done in reverse and is a part of the 28 km Murrumbidgee Discovery Track. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

Getting started: From the western end of Casuarina Sands Reserve Carpark, head towards the gap between the metal gate and the informational signpost along the paved way. Pass through the bollards serving as a bollard and enter the dirt/grass path, moving directly away from the car park. Join the subtle dirt/grass track as you pass by a directional signpost to your right. Follow the path and veer left as you pass by another signpost to your right, with no dogs and no mountain biking signs on it. Stay on the track as it follows the river to continue along Casuarina Sands Reserve to Kambah Pool Track. Keep in mind that some areas may be overgrown, but there is clear signage and distance markers every 200 metres throughout the track.
