Hard track

Starting from the car park located 850 metres north of Googong Dam, NSW, this walk explores the riverside woodland leading via mostly a fire trail to Bradleys Creek and back. You don't need to make it to the end to get great views on this journey, as the start of the trail provides you with scenic views of the three nearby dams and the landscape. Take those in and use them as fuel on the challenging bits of the walk, as there are some steep parts. Listen to the relaxing sound of water burbling near the creek as your heartbeat slows down. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.
