

Cape Baily Lighthouse from Cape Solander Dr (Dharawal Country)

2 h to 4 h

5.5 km
Return

↑ 197 m
↓ 197 m

3
Moderate track

Following the cliff line of Kurnell, looking out onto the South Pacific Ocean, this is one of the most secluded walks in Botany Bay National Park. The coastline is a popular whale watching spot during the spring. This area provides great views along the coast and out to sea. Baily Lighthouse is a great spot to sit and enjoy the views. Let us begin by acknowledging the Dharawal people, Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

Class 3 of 6 Formed track, with some branches and other obstacles	
Quality of track	Formed track, with some branches and other obstacles (3/6)
Gradient	Short steep hills (3/6)
Signage	Directional signs along the way (3/6)
Infrastructure	Limited facilities, not all cliffs are fenced (3/6)
Experience Required	No experience required (1/6)
Weather	Weather generally has little impact on safety (1/6)

Getting to the start: From Captain Cook Drive

- Turn on to Cape Solander Drive then drive for 2.8 km

Before you start any journey ensure you;

- Tell someone you trust where you are going and what to do if you are late returning
- Have adequate equipment, supplies, skills & knowledge to undertake this journey safely
- Consider weather forecasts, park/track closures & fire dangers
- Can respond to emergencies & call for help at any point
- Are healthy and fit enough for this journey

If not, change plans and stay safe. It is okay to delay and ask people for help.

Getting started: From the end of Cape Solander Drive, this walk starts at the big signpost just to the left of the toilet building. The track heads south along the cliff line (ocean on the left) following the green poles until they stop, then the track continues along the top of the cliff line (staying safely back from the very fragile cliff edge). This section is mostly on sandstone and occasionally through low heath. As the track approaches Tabbigai Gap, it joins onto Cape Baily Track where the track turns left and continues south for 50m until the apex of Tabbigai Gap and the management trail.

Start.

Cape Solander Whale Observation Platform (about 145 m back from the start).

Cape Solander Whale Observation Platform (about 145 m back from the start).

There is a helipad (about 25 m back from the start).

There is a car park.

Find the sign at the start.

After another 45 m **continue straight.**

After another 290 m **continue straight.**

After another 90 m **veer left.**

After another 460 m **turn left.**

After another 45 m (from the Tabbigai Track) **veer left.**

After another 230 m **veer right.**

After another 390 m **continue straight.**

After another 235 m find the "Hanging Swamps" (40 m on your right).

There are a number of hanging swamps that can be found along the Cape Baily walk. They are home to a number of different plants and animals like reeds and frogs. Hanging swamps are formed on high ground when rainfall seeps out of surrounding hills and accumulates in a slight depression, over time forming a swamp. Interestingly, they are sometimes difficult to see from far away as the thick build up of reeds and other plant life often cover the water.

"Cape Baily Lighthouse".
