Starting from the dirt car park in Wunaamin Miliwundi Ranges, this return walk takes you to Grevillea Gorge and back. Go on a stroll through which you can enjoy the views of the plain land and reflective surface of Grevillea Gorge. The area shows how ancient erosive forces have shaped the land, and the enormous long curve in the steep gorge wall is a great example to observe. The path and the climb to the waterfall can be slippery at certain sections, and there is a part where visitors need to climb a metal ladder to bypass a steeper section. There are also no railings around the gorge. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

Before you start any journey ensure you;

- Tell someone you trust where you are going and what to do if you are late returning
- Have adequate equipment, supplies, skills & knowledge to undertake this journey safely
- Consider weather forecasts, park/track closures & fire dangers
- Can respond to emergencies & call for help at any point
- Are healthy and fit enough for this journey

If not, change plans and stay safe. It is okay to delay and ask people for help.
