Hard track

This circuit walk covers many of the tracks just to the west of Blackheath. The walk follows the cliff lines, both above and below, with amazing views of the Kanimbla Valley, rock features and waterfalls. The walk takes in a cross section of plants, with defined changes through the cliff passes. Let us begin by acknowledging the Dharug & Gundungurra people, Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

**Getting started:** From the car park, this walk heads to the service trail gate parallel with the road (approximately in line with the end of the grassy median strip) and then onto the trail behind. The track passes through the heath for a while until it nears the cliff edge and narrows. The walk continues around the hill through the heath for some time to then begin a descent over a rocky surface with cut-in stairs. The track winds right, keeping with the cliffline while looking out to the valley on the left. Be mindful of climbers and falling objects along these cliffs. The cliffline disappears behind scrub as the track reaches a man-made basin filled by drips from the cliff roof above. The track rounds out of this glen to climb up the hill, through heath to the signposted intersection.
