Hard track

This long day-walk starts from the Girrakool picnic area and works its way south, alongside Piles creek and through the Brisbane Waters National Park. The walk climbs over Scopas Peak and passes the Kariong brook falls, before winding to the top of Mt Wondabyne and finishing at the Woy Woy train station, (passing the Woy Woy landfill site). If doing a car shuffle, you can park a car near the landfill and save the road section. Let us begin by acknowledging the Darkinjung & Guringai people, Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

Getting started: From the lower side of the car park, this walk follows the 'To The Great North Walk' sign down the path to the lower picnic area. The walk passes the toilet block (on the left) and comes to another picnic area. The path passes through this picnic area to turn right following the 'Piles Creek Loop Track' sign down the steps. The footpath then leads to an intersection with the Broula Lookout track (on the left) and a 'car park' sign pointing back up the hill.

From the intersection, this walk follows the 'Girrakool Loop' sign down along the stone path. The path soon heads down some steps and comes to a fenced and signposted 'Illoura Lookout'.

 Girrakool Picnic Area (about 45 m back from the start).

Girrakool picnic area is a wonderful family destination, just 5 minutes' drive from Kariong. The picnic area provides all the necessary facilities for a full day's activities, including barbecues, tables, shelters, water and toilets. National Park fees apply. The main picnic area is on the eastern side of the car park, and smaller, older picnic area is at the north-eastern corner of the car park. The southern Girrakool picnic area is located near the toilets. The picnic area is dedicated to John 'Jack' Higgs, the first superintendent of Brisbane Water National Park, and Mrs Vera Murdoch, who provided the funds. 'Girrakool' is an Aboriginal word meaning 'place of still waters'.

 There is a sign (about 7 m back from the start).

 After another 25 m pass the toilet (10 m on your left).

 After another 60 m pass the BBQ (25 m on your left).

 After another 100 m (from the Girrakool Loop Track) **continue straight**, to head along Girrakool Loop Track.

 After another 15 m find the "Broula Lookout" (40 m on your left).

Broula Lookout is fenced and a fairly short walk down from the Girrakool picnic area. Over time, the trees in the area have grown, filtering what would otherwise be a great vantage point for the Piles Creek waterfall. Broula is an Aboriginal word referring to a place of trickling water.

 After another 25 m (at the intersection of Girrakool Loop Track & Piles Creek Loop) **turn left**, to head along Piles Creek Loop.

 After another 40 m find the "Illoura Lookout" (on your right).

Illoura Lookout, Brisbane Water National Park, can be found a short walk south-west of the Girrakool picnic area, following the Great North Walk sign. Illoura is an Aboriginal word referring to a pleasant or peaceful place.

The large waterfall on Piles Creek is south of Girrakool Picnic Area in Brisbane Water National Park. At the Piles Creek Loop track crossing at the top of the falls, there is a large rock platform. The cliff edge is unfenced and would be dangerous to approach for the view. The water falls down the large drop, into a big pool below. The 'Bundilla Lookout' on the other side of the valley provides the only square view onto the falls, but even this only witnesses the top half.

After another 25 m come to "Piles Creek Lookout".

Piles Creek lookout (not formally named), Brisbane Water National Park, sits high on the ridge, east of Piles Creek and north of Rat Gully. This lookout provides views over the Piles Creek valley and can be enjoyed from behind a fence. The valley is surprisingly steep at this point and the views downstream are quite extensive.

The cave is a fairly large sandstone overhang on the edge of the track. The cave provides shelter for walkers and is a great spot to rest and enjoy the area. This rock and the more Monolithic rock about 60m to the south are interesting to explore, and provide great views of the surrounding area. Take great care if exploring the rocks.
