

ENVIRONMENTAL DATASHEET

PRODUCT COMPOSITION

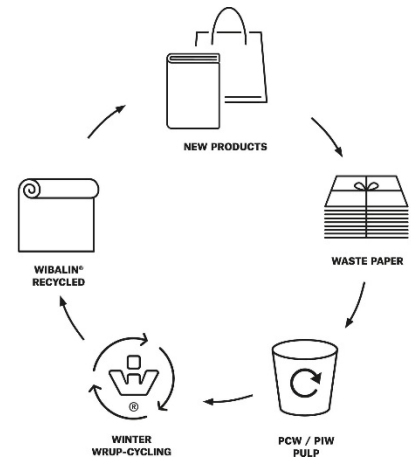

WINTER WRUP-CYCLING

Winter Wrup-Cycling revives recycled materials into high-quality coverings.

This upcycling process has been developed by Winter & Company. Selected sustainable raw materials and especially recycled materials from post-consumer and post-industrial waste are processed into new cover materials.

Winter Wrup-Cycling was applied to the production of Wibalin® Recycled. Waste made of 60% post-industrial waste and 40% post-consumer waste becomes a strong, durable, dyed through paper.

POST-CONSUMER WASTE

Wibalin® Recycled contains 40% post-consumer waste. Once office paper and newspaper have served their intended end use, they become post-consumer waste or PCW. The greater the percentage of post-consumer waste in the cover material, the less resource intensive it is, as it is closer to true "closed-loop" recycling. Materials made with PCW saves resources like trees, water, energy, and greenhouse gas emissions.

POST-INDUSTRIAL WASTE

Wibalin® Recycled includes 60% post-industrial waste or PIW. This PIW is made of paper coffee cup waste, that derives directly from industry, not retail activity. The good, clean quality and availability of large amounts of the PIW makes it excellent for reuse.

FSC™

This product is FSC™ certified.
 The mission of the Forest Stewardship Council is to promote and enhance well-managed forests through credible certification that is environmentally responsible, socially acceptable, and economically viable.

**REACH**

Winter & Company confirms that all our products comply with REACH. None of our products contain any of the substances currently listed as SVHC's (Substances of Very High Concern) under REACH. Registration, Evaluation, Authorisation and Restriction of Chemicals is a European Union regulation dating from 18 December 2006. REACH addresses the production and use of chemical substances, and their potential impacts on both human health and the environment.

**RECYCLABLE**

Wibalin® Recycled can be recycled by all standard recycling processes.

**VEGAN**

Based on suppliers information provided, Wibalin® Recycled does not contain any animal products or animal-derivatives.
