

HYDRA THERMO

TECHNICAL DATASHEET

APPLICATIONS	<div> BINDING & PUBLISHING</div> <div> HANG TAGS & LABELS</div> <div> LUXURY PACKAGING</div> <div> STATIONERY</div>
SURFACE	Polyurethane
BASE	Recycled leather fibres
DECORATION BY	Foil stamping and silk screen printing
TESTS	Please consult us.
MIN. QUANTITY SPECIALS	500 m
PRODUCTION TIME	~3-4 weeks
ROLL WIDTH	~145 cm
ROLL LENGTH	~45 m
SHEETS	On request
NET WEIGHT	~350 gsm
THICKNESS	~0.35 mm (20% tolerance)
TYPE OF PACKAGING	1 roll per carton
SIZES OF PACKAGING	~146 × 25 × 25 cm
INNER CORE Ø	~5 cm
GROSS WEIGHT	~26 kg
NET WEIGHT	~25 kg
CUSTOMS DECLARATION	Leatherboard
TARIFF NUMBER	4115.0000 (Switzerland) / 4115 1000 000(European Community)
ENVIRONMENTAL DATA	<div></div>

HYDRA THERMO

ENVIRONMENTAL DATASHEET

PRODUCT COMPOSITION

WINTER WRUP-CYCLING

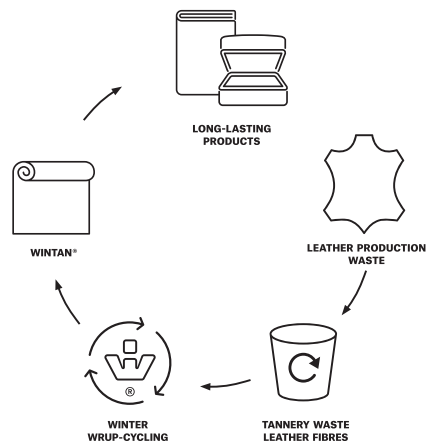

Winter Wrup-Cycling revives recycled materials into high-quality coverings. This upcycling process has been developed by Winter & Company. It allows to recycle valuable raw materials, ensures that they are used for high-quality products and do not end up as waste. Winter Wrup-Cycling was applied to the production of Wintan® Hydra Thermo.

Tannery waste fibres are transformed into a durable cover material.

The recycling of industrial waste into a new long-lasting product is an enormous contribution to help to reduce energy and disposal of potentially contaminated waste to landfill.

Wintan® Hydra Thermo is using tannery waste fibres to make them into a durable cover material to decorate and enhance surfaces for many years to come.

The surface finish consists of a fully aqueous, polyurethane coating, applied by paper transfer coating. Low risk chemicals ensure the lowest environmental impact whilst at the same time creating an attractive and sustainable new material.

WASTE EQUIVALENT

The use of tannery waste is an effective way to reduce the environmental impact. The recycling process produces a new product in a continuous roll form, true to the characteristics of real leather. At the same time saving a significant amount of waste that would otherwise have gone to landfill.
