RECYCLED PLASTIC

Non-toxic, ultra-durable, low maintenance. 100% recycled.

BLACK

GREY

SAND

REDWOOD

WALNUT

NATURAL WOOD ALTERNATIVES *

Premium natural and modified wood options.

ACCOYA®

Acetylation modifies the wood to repel water rather than absorb it. This creates extreme dimensional stability and durability.

ACCOYA® GREY

ACCOYA® NATURAL

RED CEDAR

Natural oils resist insects, rot, and decay. Its superior stability and aesthetic beauty make it an excellent choice without extra treatment.

WESTERN RED CEDAR

HARDENED BAMBOO

Created by compressing full-length bamboo strands under intense heat and pressure. The result is an extremely dense, fire-resistant material that allows for easy on-site maintenance, allowing for simple on-site sanding to remove graffiti or minor scratches.
