OFFICIAL DOCUMENT 1

## Student Academic Record

Master of Science in Computer Science

Full name: Tomáš Garrigue Masaryk

Nationality: **Poland**Student ID: **0000000000** 

Degree name: Master of Science in Computer Science
Degree accreditation level: ECTS Accredited (EQF7)

Degree completion status: **Completed**Date of award: **28 November 2025** 

Official accreditation information: <u>Degree listing on MFHEA website in Europe</u>

Average (percent): 100% Cumulative GPA: 4

Course title	Completed	Hours	ECTS credits	US percent	GPA
Tier 2					
UX Research Methods and Usability Testing  Transferred in fulfilment of the requirements of this program	28/11/2025	125	5	100%	4
GUX/UI Design	28/11/2025	125	5	100%	4
Privacy and Cryptography: Quantum Cryptography Transferred in fulfilment of the requirements of this program	28/11/2025	125	5	100%	4
Computer Systems and Their Fundamentals	28/11/2025	125	5	100%	4
Business Case Studies	28/11/2025	125	5	100%	4
Relational Databases	28/11/2025	125	5	100%	4
Design Patterns	28/11/2025	125	5	100%	4 SP
Back End Development	28/11/2025	125	5	100%	4
Fundamentals of Cyber Security  Transferred in fulfilment of the requirements of this program	28/11/2025	125	5	100%	4
DevOps	28/11/2025	125	5	100%	4
Product Management for Software Engineers	28/11/2025	125	5	100%	4
Identity and Access Management in Cybersecurity  Transferred in fulfilment of the requirements of this program	28/11/2025	125	5	100%	4
Career Strategies and Soft Skills for IT Professionals	28/11/2025	125	5	100%	4
Productionization of Machine Learning Systems	28/11/2025	125	5	100%	4

Course title	Completed	Hours	ECTS credits	US percent	GPA R
Graphic Design Transferred in fulfilment of the requirements of this program	28/11/2025	125	5	100%	45
Asset Management and Data Security in Cybersecurity Transferred in fulfilment of the requirements of this program	28/11/2025	125	5	100%	4

Student credentials

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition.

Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

### 1. Information identifying the holder of the qualification

- 1.1. Full name: Tomáš Garrigue Masaryk
- 1.2. Date of birth (dd/mm/yyyy): 28/11/2025
- 1.3. Student identification number: 0000000000

### 2. Information identifying the qualification

- 2.1. Name of qualification and (if applicable) title conferred (in original language):
  Master of Science in Computer Science
- 2.2. Main field(s) of study for the qualification: Computer & Mathematical Science
- 2.3. Name and status of awarding institution (in original language): Woolf
- 2.4. Name and status of institution (in different from 2.3) administering studies:

  Woolf (established in 2018) is an accredited Higher Education Institution in Malta with license 2019-015 from the Malta Further and Higher Authority.
- 2.5. Language of instruction/examination: Ukrainian

### 3. Information on the level and duration of the qualification

- 3.1. Level of qualification: ECTS Accredited (EQF7)
- 3.2. Standard Programme Length: 18 months
- 3.3. Standard Programme Delivery Length: 27 months
- 3.4. Access requirements: Undergraduate Degree or Equivalent

### 4. Information on the programme completed and the results obtained

4.1. Programme learning outcomes:

#### Knowledge

- Develop a cutting-edge knowledge and understanding of computer science allowing the students to solve real-world engineering and specific computational problems using advanced techniques at the forefront of computer science
- Analyze the societal, regulatory, and technological contexts for key computer science applications
- Identify real-world problems and apply their understanding of computer science techniques and develop innovative solutions.
- Display original thinking on the basis of the knowledge the students gain in the course

#### Skills

• Develop advanced, innovative, and multi-disciplinary problem-solving skills

- Communicate computer science methods and tools clearly and unambiguously to specialised and non-specialised audiences
- Develop advanced abilities related to computer science operational procedures and implement them in response to changing environments
- Critically evaluate alternative approaches to solving real world engineering and technological problems using cutting edge techniques in computer science on the basis of academic scholarship and case studies, demonstrating reflection on social and ethical responsibilities
- Formulate technological judgments and plans despite incomplete information by integrating knowledge and approaches from various computer science domains including machine learning, distributed computing, and cloud computing.
- Enquire critically into the theoretical strategies for solving real-world problems using computational thinking and tools.
- Develop new skills in response to emerging knowledge and techniques and demonstrate leadership skills and innovation in complex and unpredictable contexts

#### Competencies

- Formulate research-based solutions to practical problems in environments of incomplete information.
- Manage decisions with autonomy in complex and unpredictable environments.
- Organise projects and people in a way that is responsive to changes in the wider technological environment.
- Demonstrate learning skills needed to maintain continued, self-directed study.
- 4.2. Programme details, individual credits gained and grades/marks obtained: Refer to the first page of this transcript
- 4.3. Grading system and, if available, grade distribution table: Refer to the first page of this transcript.

### 5. Information on the function of the qualification

7.3.

- 5.1. Access to further study: Degree Programmes may entitle access to EQF8 Level Study
- 5.2. Access to a regulated profession (if applicable): Not Applicable

#### 6. Additional information

6.1. Further information sources: <a href="https://woolf.education/regulation/regulatory-resources">https://woolf.education/regulation/regulatory-resources</a>

## 7. Certification of the supplement

7.1. Transcript issued and signed on 28 November 2025 by:

7.2.

July

Joshua Broggi

President

Anton Chornyi

Dean of GolT Neoversity
