

Sam's Garden

Sam loved spending time in his garden. One day, he planted some flower seeds in the soil. He watered them every day and made sure they got plenty of sunshine.

After a few weeks, tiny green sprouts started to appear. Sam was excited to see his flowers growing. He watched them get bigger and bigger. One morning, he saw that the flowers had bloomed into beautiful colors—red, yellow, and purple!

Sam was very proud of his garden. He knew that taking care of his plants made them grow strong and healthy. It was wonderful to see his hard work turn into a colorful garden.
