

## Sally and Sam's Forest Adventure

Sally the Fox and Sam the Owl were best friends who loved exploring the forest. Sally was quick and agile with bright orange fur and a bushy tail. She enjoyed racing through the trees and chasing after butterflies. Sam, however, was slow and wise with soft brown feathers and large, round eyes. He preferred to fly high above the forest and watch everything from the sky.

One sunny day, Sally invited Sam on an adventure. Sally ran along the forest floor, showing Sam the colorful flowers and sparkling streams. Sam flew overhead, pointing out hidden nests and secret spots. They shared their favorite sights and enjoyed each other's company. Even though they explored in different ways, Sally and Sam had a wonderful time together.

What color was Sally the Fox?

What did Sam the Owl use to see things from high up?

What did Sally show Sam during their adventure?

What did Sam point out while flying?
