# 5 PRACTICE FOR PRACTICE

## BEST PRACTICES

Before you meet with the band to rehearse, make sure you have practiced the songs yourself and know where you would like to go in your arrangements. This encourages band members to keep their chops up as best as possible between rehearsals, because they know you'll be exact about where you're going with songs when they get there.

Practice for practice, and be ready to confidently arrange the songs you'll be doing with the band.
