8 STRIKE THE ANVIL

BEST PRACTICES

Like a blacksmith, when something is soft it is the best time to form it. When your congregation is in a "soft" season toward God's Spirit, provide extra opportunities for people to connect with God in worship, during the week or in special gatherings. If God is indeed doing something in your midst, the end result will be a deepened awareness of God's presence that will resonate throughout the following years.

Strike the anvil while the fire of God is heating up the heart of your church.

ESSENTIALS IN WORSHIP
