36 MIX IT UP

BEST PRACTICES

Nothing can reinvigorate a worshipping community more than a re-posturing of the musical expression of worship. In other words, if your church has a power band, plan in an acoustic set every once in awhile. Let the congregation know beforehand, and they will respond positively without feeling "gypped."

Interspersing special worship experiences along the course of a year can bring much needed renewal to your congregation's weekly gatherings.

ESSENTIALS IN WORSHIP
