40 PREPARE THE GROUND

BEST PRACTICES

Just as a good farmer plows the ground before planting seed, so too it is vital that you and your team both worship and pray together before you lead God's people into worship. The softening of your heart will pave the way for the seeding of everyones' hearts.

This is an unseen task that matters in the visible life of the church over time. Help your team to see themselves as intercessors, as well as seeing themselves as musicians and techs.

ESSENTIALS IN WORSHIP
