45 TEACH THE STUFF

BEST PRACTICES

Many worship leaders/pastors shy away from actively teaching their congregation what is happening in the midst of a worship time. Worshippers need to be intentionally taught, from the Scriptures and church history, what it means to embrace the in-breaking of the Kingdom of God in worship, what the symbols of worship (communion, singing, etc.) truly mean, and what it means to offer true allegiance to God.

Hone your skills at communicating, and begin now to prepare an effective article or message on "why we worship" for your congregation.

ESSENTIALS IN WORSHIP
