### What was the BEST thing in this contest ?

Banquet

Contest Problems

problems

Awarding Ceremony

Contest atmosphere ... is great!!

It was my best thing that I could meet many skillful programmers. Furthermore, it was an unanticipated happy thing that I could meet my old friend again at the contest venue.

Contest problems, especially I and J.

Banquetで企業の人と話ができたこと

What did not have any trouble during a contest.

friendly atmosphere among all participants at the contest.

Banquet (Party)

Time when I solved problems

contest problems

Very good problems

I'm a coach. I enjoyed the broadcast program on ICPC problems and their solutions on time.

It helped me understand problems on site.

The amount of preparation you put in was very visible. Thank you so much for putting all that effort in to make it go smoothly for all the participants.

That I could meet two old boys in the contest

Expert Organization

**If you have suggestion on this contest, please write it here. (For example, X should be improved. Y is great, so we should spend more energy on Y, etc.)**

Everything is good!!

We would like to bring our own keyboard.

While the organization may not have much budget, I thought it was unfair that some contestants could not go to their hotel early because of the number of buses. I dare hope that every contestant can compete under the same condition during the regional contest.

Some shy programmers is not good at interaction with others. I may want like "ice break" in the Welcome Reception, for being friendly with other contestants and STAFFs.

Greeting speeches in awarding ceremony was too long.

All keyboards should be same among teams.

we waited for the bus for a long time when we went to welcome dinner or went to hotel....

except that, all things were excellent!

Let me use the JIS keyboard

The amount of meal at the banquet is too much; I felt "mottainai".

Announcement of results with "Yes-No Uncle" was very exciting :)

I hate introducing ourselves.

Party Room(used on day 1) was cold. It is great that all events held in same building.

Sponsors can set up awards on "First Solution for each problem". Hotels will be better with bathing pools.

Too many fried foods in the Welcome Party, not a balanced diet like the Closing Party :)))

ICPCコンテスト内で撮影される写真の公開範囲を明確にして欲しかった。観戦者向けのスコアボードにチーム写真がアップロードされることに驚いてしまった。

The web pages and hotels are great, contest problems should be improved.

Practice Sessionの時間をもう少し(15分くらい)長くしてほしいです(ことしはJava Challengeがなかった分、タイピング練習をする時間が取れませんでした)

PFN賞でNANA MIZUKIが出てきたのは面白かった。今後もこのようなネタを入れてほしい。
