

 SÉURA®

The Science
of Light

OPTIMIZING DESIGN, FUNCTIONALITY, AND WELLNESS

A new CEU course brought to you by Séura

Light is part of our daily lives and it plays a central role in the design of a visual environment. In this course, you'll explore how lighting impacts health and well-being as well as tools to help ensure your lighting plan best illuminates your design.

What is CRI?

Lumens vs foot candles?

What are different color temperatures for?

How do colors and finishes impact lighting?
