

SÉURA MIRROR TECHNOLOGY, CUSTOM UPGRADE

Night Light

Just a warm glow of sleep-inducing low light is all you need, so you can drift back to dreamland easily. This small night light is hidden below the bottom edge of the mirror so it casts light downward and matches your sleek, functional style.

IDEAL SPACES

Bathroom Vanity

NIGHT LIGHT LOCATION

Centered underneath the mirror

CONTROL

Upgrade to in-mirror touch control or control from a wall switch, either with the mirror lights or on its own switch

STREAMLINED DESIGN

Hidden from view, this night light shines down from beneath the mirror for a seamless appearance that lights your way.

IDEAL LOW LIGHT

A soft glow for nighttime comfort, enjoy just the right amount of illumination for safe room navigation.

SUSTAINABLE LED

The long lasting, low-voltage LED night light can be left on all night, every night.

OPTIONAL TOUCH CONTROL

Conveniently control the night light from the mirror. One touch turns the night light on and off.

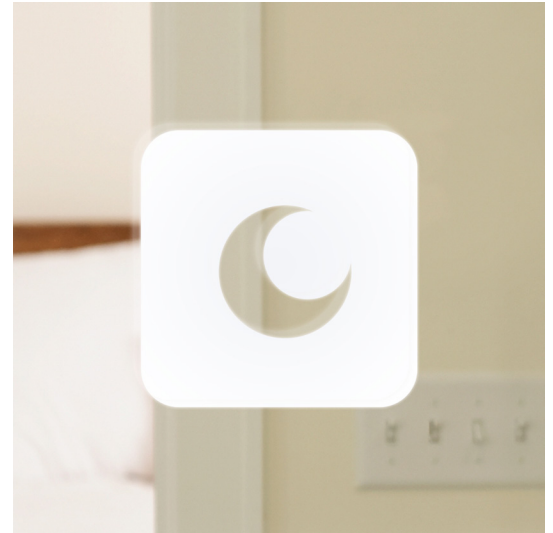

Night Light

OPTIONAL TOUCH BUTTON OPERATION

When the mirror is powered on, the energy-efficient button senses your touch. One tap turns the night light on and off. The button illuminates to indicate the night light is on. Powered separate from the mirror lighting, save energy by only using it when needed.

NIGHT LIGHT
Night Light Model: NL
Touch Control Night Light Model: TNL
