Vanishing Vanity Glass to match TV Mirror  
Touch Controls not available with Vanishing Vanity Glass

**LIGHTED MIRROR NON-DIMMING OR DIMMING TYPE**

For other electrical requirements, include specifications in the comments section.

For dimmable mirrors without touch control, choose one of the non-touch dimming options. In North America, most homes and commercial buildings either require TRIAC dimming or 0-10V dimming. If you're unsure of the wiring in your home or building, please consult an electrician who may need to come to your home or building and look at the wiring to determine which type is installed or select "unknown dimming requirements".

- Non-Dimming
- Touch Control Dimming
- 0-10V Dimming
- TRIAC Dimming, 1-10V Dimming, Potentiometer Dimming, or 10V PWM Dimming
- Other Dimming (clarify in comments section)
- Unknown Dimming Requirements

**INPUT POWER REQUIRED**

In North America, the standard voltage in homes is 110-120V and commercial buildings is 110-120V or 277V. If you're unsure of the input voltage, please select "Unknown Input Power".

- 110-120V
- 220-240V
- 277V
- Other Input Power (please clarify in comments)
- Unknown Input Power

**MORE OPTIONS >**

**CUSTOM TOUCH CONTROLS**

Touch Buttons are centered near bottom of mirror. Some technologies paired with others may not be compatible

On/Off/Dimming	On/Off/Dimming, Clock	On/Off/Dimming, Night Light	On/Off/Dimming, Defogger
			<b>NO BUTTONS</b>
On/Off/Dimming, Color Temperature	On/Off/Dimming, Color Temperature, Night Light	On/Off/Dimming, Color Temperature, Defogger	No Touch Control, 0-10V or TRIAC dimming included

Touch control mirror upgrades are not available on mirror sizes larger than 17.5 square feet (i.e. larger than 60" x 42") with Allegro, Forte, or Halo lighting designs.

**CUSTOM LIGHTED MIRROR ADD-ON OPTIONS**

Include additional customization requests in the comments section on pg 3 or include related drawings. Some technologies paired with others may not be compatible.
