

SÉURA OUTDOOR TVS

Shade Series 2™

Séura® Shade Series 2™ Outdoor TVs are simply the best option for shaded areas. With its sleek design, best-in-class picture quality, best-in-class weatherproofing, and the best-in-class 2-year warranty, there is no better choice for shaded outdoor spaces.

Weatherproof

IP56 rated to withstand powerful water jets and protect against dust and solid particle ingress, Séura outdoor TVs are safe for year-round use.

Multi-Climate

Shade Series 2™ TVs are made to withstand temperatures from -24°F to 140°F.

Brightest In Class

Shade Series TVs are 3x brighter than indoor TVs and 35% brighter than the competition when measured at peak 100% window and compared to SunBrite Veranda 3.

Lifelike Shades and Hues

Equipped with High Dynamic Range, Séura outdoor TVs provide sharp contrast between bright and dark colors for the best outdoor picture.

Stunning Definition

4K UHD picture clarity — four times the resolution of regular HD — has amazingly sharp details that immerse you in the moment.

Supports Streaming Devices

Connect Roku, Chromecast, and other media devices to the TV inputs and outputs, accessible in the weatherproof media compartment.*

Micro-Edge Design

Enjoy a sleek, modern design with an ultra-thin bezel for nearly borderless viewing.

2-Year Warranty

2-year warranty provides peace-of-mind for reliable and safe entertainment in any environment.

* IP Rating is an international standard that specifies the degree of protection against dust and water ingress. Séura Outdoor Displays are IP rated and designed to protect against rain, snow, ice, dust, and other outdoor elements.

* Séura is not liable for damage or destruction to third party devices used with Séura products. If using an IR device (for example, Apple TV and Roku models prior to 2019), you will need to set up CEC control for your streaming device. This option is available in the settings menu of your streaming device. To enable CEC on your Séura TV, go to Menu – Network – Advanced Network Setting – CEC. This allows you to use Séura's TV remote to control the streaming device. If your streaming device does not use an RF connection and is not CEC compatible, then it will not receive remote control commands when placed in the media compartment. An IR emitter may work in getting a signal to the streaming device.
