

SÉURA TV MIRRORS

Lighted Vanity TV Mirrors

Seamlessly incorporate video into bathrooms, dressing rooms and spas without ever having to see the TV. Combine with abundant, bright light and a broad suite of customization options that makes Séura's lighted TV mirrors perfect for every design project.

Vanishing Technology

Séura's vanishing technology allows the TV to appear in the mirror when on, and completely hide behind the glass when turned off.

True to Life Reflection

Minimal mirror tint closely resembles silver mirror glass to provide excellent mirror reflectivity and a color-accurate, true-to-life reflection.

Exceptionally Bright TV Screen

High brightness television panels and specially formulated mirror glass allows the brightest picture to shine through.

Long-Lasting Mirror

Copper-free mirror glass with UV protective coating is not susceptible to black edge corrosion caused by ammoniated cleaners and humid environments.

Wall Mount Included

Choose a surface mount or in-wall recessed mount, included with your TV Mirror.

Supports Streaming Services

Access a variety of connectivity options with the TV's inputs and outputs that supports Roku, Chromecast, and more.

Flexible Audio Solutions

Two 10W speakers are integrated on the reverse side of the mirror. Use the TV's audio output ports to connect professional distributed audio solutions like architectural ceiling speakers.

Custom Options

Unique design options include mirror size, mirror shape, frame, technology upgrades, and more.
