

SÉURA MIRRORS

Round Lighted Mirrors with Traditional Mirror Housing

Séura round lighted mirrors offer a professional lighting experience with a bright, even ring of high-quality natural LED light for your bathroom, bedroom or dressing room.

Eco-Friendly, Radiant COB LED Technology™

Energy-efficient and long-lasting lighting uses 40% less power than Séura's previous LEDs, reducing maintenance and electrical costs.

Dimmable

Smoothly adjust light intensity from 100% full brightness down to 10% ambient low-lighting with dimming that lets you control the brightness to your match preference; upgrade to Touch Control Dimming to adjust brightness from the mirror.

Beauty Lighting

Séura combines a 90+ CRI rating with a 96 R9 value (red color) to bring your vibrant skin tones to life, providing the ideal light for applying makeup.

Plug-In

Comes with a 6-foot cord to be plugged into a wall outlet or can be configured for hard-wire installation. Open back housing allows electrical connections behind the mirror to avoid visible cords for that "free floating" appearance.

Durable Mirror with Crystal-Clear Reflection

Copper-free mirror glass with UV protective coating is not susceptible to black edge corrosion caused by ammoniated cleaners and humid environments.

Easy Wall Mounting

Includes installer-preferred, two-piece wall mounting system. Visually position and mount the mirror housing, make electrical connections, and hang the mirror glass.

Built in the USA

Designed and manufactured in Wisconsin, Séura mirrors are created upon order – enabling an unmatched level of control and craftsmanship with each and every mirror.

Custom Options

Unique design options including mirror size, mirror shape, frame, technology upgrades, and more.

FORTE DESIGN

HALO DESIGN

GENERAL	MIRROR GLASS	1/4" silver mirror glass provides accurate, crystal-clear mirror reflection
	CORROSION FREE MIRROR	Copper-free mirror glass is not susceptible to black edge corrosion
	UV RESISTANCE	UV Protective coating applied to mirror glass
	GLASS ETCHING	Back-sided etching with smooth front surface that doesn't collect dust or grime and makes cleaning easy
LIGHTING	LIGHTING TECHNOLOGY	Séura Radiant COB LED Technology™
	COLOR RENDERING INDEX (CRI)	90+ CRI, R9 Value of 96
	COLOR TEMPERATURE	3000K neutral light color
	POWER CONSUMPTION	4.6 watts/foot, 40% less power consumption vs. previous Séura LEDs
	EFFICIENCY	100 lumens/watt, 25% more efficient vs. previous Séura LEDs
	LAMP LIFE	50,000 hours at L70
	SUSTAINABILITY	Mercury-free, long-lasting, high-efficiency LED lighting saves energy and reduces environmental impact
	DIMMING	Compatible with 0-10V, TRIAC, Forward Phase, Reverse Phase, and ELV (Electronic Low Voltage)
CUSTOMIZATION	CUSTOM DESIGN OPTIONS	Mirror size, mirror shape, holes, frame, etching design, additional task + ambient lighting
	CUSTOM TECHNOLOGY OPTIONS	Touch control dimming, touch control color temperature, night light, touch control night light, defogger, touch control defogger, digital clock, touch control clock and dimming, UL electrical plug
	CUSTOM FUNCTIONALITY OPTIONS	Fingerprint protection, tamper-free security latch, safety mirror backing
	MAXIMUM MIRROR SIZE	Round Mirrors available in sizes up to a 68-inch diameter; rectangle mirror shape available up to 94" w x 70" h or 70" w x 94" h
INSTALLATION	PRODUCT DEPTH	2.0"
	CONFIGURATION OPTIONS	Hard-wired or plug-in configurations available; simple two-part installation process
	CHASSIS	Powder coated steel construction is highly durable; reflective gloss white housing allows brightest light output
	WALL MOUNT	Includes mounting and hardware for surface installation
	ELECTRICAL ENCLOSURE	Open back housing to easily locate and make electrical connections
OTHER	WARRANTY	Lighted Mirrors (excluding Imported Lighted Mirrors) with respect to Séura's labor, glass, structure, and assembly for seven (7) years; electrical and LED light strips for five (5) years; mirror technology with respect to Séura's labor and parts including clocks, night lights, defoggers, dimmers, and touch controls are covered for three (3) years.
	CERTIFICATIONS AND COMPLIANCE	ETL listed to conform to UL and CAN/CSA safety requirements; LEDs are UL Listed, CE certified, RoHS certified
	TITLE 24 COMPLIANCE	Compliant with Title 24 Building Energy Efficiency Standards (applies to select models)
