

DO YOU ENJOY MAKING NEW FRIENDS?

Many people living on Arran don't get the opportunity to socialise with as often as they would like. The pandemic has further highlighted the problem of isolation across the island. Befriending is an opportunity to address this, a friendly chat really does make a difference to someone's day.

"I can honestly say, I get more from volunteering than I give."

Your Community Needs you!

If you are a 'people' person with a desire to make a difference with your community, you could be the perfect befriender for someone. Full training and support will be given. We also have a vacancy for a volunteer co-ordinator.
