10.30 – 12.15	<b>Tackling Questions Workshop</b>	<p>Students will be split into groups according to their course group and, guided by our subject-specialist Oxbridge graduate tutors, will look at material relating to their subject area. Our tutors will pose questions which challenge students' ability and lateral thinking skills.</p> <p>Students will take it in turn to give answers to the group. The group will then give feedback on that answer, highlighting both good points and things to improve upon.</p> <p>Factors to consider are: Was the answer logical and easy to follow? Did the student apply knowledge as well as demonstrate academic potential? If relevant, was there a valid argument/ clear conclusion/ formula used? Did the student give examples/ make references and back up their points/ theories? Did the explanation make sense? Was it interesting and innovative?</p> <p>Examples will be given as to how questions can be answered, both on paper and in front of the class.</p>
