

# OXBRIDGE SUPPORT FOR YOUR STUDENTS

## TAILORED, SPECIALIST SUPPORT AT EVERY STAGE OF PREPARATION FOR OXBRIDGE, MEDICAL AND LAW SCHOOLS.

Teachers want to see their pupils flourish – and winning an Oxbridge place is often the final achievement at the end of years of hard work. However, even experienced educators may not have access to the most recent admissions insights needed to give their students every chance of winning a place.

Oxbridge Applications provides specialist advice to demystify the universities, make the application process easier, and help students to shine at all stages of the application. Each year we work closely with over 400 schools, providing guidance for their Oxbridge applicants. Our approach develops applicants' unique strengths and builds their intellectual confidence – both of which help them demonstrate their true academic potential.

Unlike the new players in the market, who claim to offer 'expert guidance' at reduced rates, Oxbridge Applications has performed thorough research into the Oxbridge admissions process for 18 years. We gather data directly from the universities, thousands of applicants, and survey hundreds of schools. This research is combined with the personal experience of our 2,400 strong Oxbridge-graduate tutor network, our close relationships with many former and current Oxbridge Admissions Tutors, and our board of expert advisors.

**There is absolutely no doubt that the students have gained a huge amount from the Oxbridge Preparation Day. In particular it has boosted their confidence before attending interview. I can only recommend this model of working with clusters of state schools in other areas / local authorities.**

Peter Bournnell was the founder and director of Future Higher.

**We've had Oxbridge Applications help us for eight years. Efficiency, quality and adaptability are what recommend them to us, and they are consistently rated 'outstanding' by the pupils.**

Guy Nobes, Head of Guidance at Marlborough College.
