

Pay and Benefits

in the House Building Sector

We've always received a great service from Paydata - always a positive experience."

RESPONDENT

Paydata Customer Satisfaction Questionnaire

In a challenging marketplace, effective and competitive remuneration is a key focus. Employers need to ensure their reward policies and practices are both practical and relevant.

Paydata's specialist House Builders Salary Survey covers employers in the UK house building sector. The survey report provides participants with valuable, accurate and specific external market information to inform reward decisions, much of which is not available anywhere else. Customised for house builders, it enables employers to compare their pay and benefits with comparable organisations - those who they recruit from and lose people to.

As a leading provider of salary and benefits benchmarking data, Paydata have been helping employers benchmark their terms and conditions to the external market since 2002.

Data Collection

We make submitting your data easy with our flexible data collection options.

Participants can either complete an easy-to-use spreadsheet questionnaire or provide a payroll or HR download, along with any relevant structure/organisation charts.

Your Survey Report

Our customers tell us their survey reports are an invaluable source of market data, and a key input into making informed pay decisions.

PERSONALISED PAY REPORTS

Participants receive an individually produced personalised report that is simple to interpret and enables them to easily compare their reward practices to the market.

TIMELY REPORTS

Post pay review salaries are collected from participants so that our survey database can be kept up-to-date all year round.

Participants can then draw down updated reports at any time during the year. For example, organisations with January pay reviews often request an updated report in September, to inform their decisions.
