How does the Rutherford treatment pathway work?

Our simple process provides straightforward access to world-class treatment

If a member is diagnosed with cancer, we provide access to pioneering cancer treatments at a leading, recommended facility under the care of consultant oncologists who are specialists in their field.

01

The membership benefits team can be contacted after a formal diagnosis from a GP referred specialist has been obtained.

02

An expert appointment is arranged by a Rutherford consultant.

03

On confirmation of the correct diagnosis, a treatment plan and pathway is produced and approved by a discretionary panel of field leading experts.

04

Dates for treatment are agreed with our Members Benefits Team. Travel and necessary hotel stays are then booked and paid.
