AFTERNOON TEA

## OUR TEAS

### ASSAM (SINGLE ORIGIN)

Assam in North East India is one of only two places in the world where tea plants are native. The teas are grown in the lush region of the Brahmaputra Valley and are known for their full-bodied flavour. This blend is robust in character, with a smooth and malty taste.

### CAMOMILE

Our camomile infusion contains only the delicate flower heads of the camomile plant. Naturally caffeine-free and known for its calming and soothing properties, camomile gives a smooth, sweet flavour to help you unwind.

### DARJEELING (SINGLE ORIGIN)

Teas from Darjeeling in the Indian state of West Bengal are often known as the 'Champagne of teas'. These prized tea leaves are grown in the foothills of the Himalayas, some 6,000ft above sea level. This environment affords the tea a delicate flavour with aromatic notes of grape and floral undertones.

### EARL GREY

Named after the British Prime Minister for whom it was specially created in 1831, Earl Grey is a quintessential British tea. Black Chinese tea is blended with citrusy bergamot oil to create our Earl Grey. The result is a delicately flavoured tea that is light and refreshing.

### ENGLISH BREAKFAST

A hearty blend made from Assam teas grown in the Brahmaputra Valley, North East India. With its robust character and lively flavour, this strong and bright tea is designed to refresh and invigorate, ideal at any time of day.

### GREEN JASMINE

Jasmine buds are picked by hand and scattered amongst green tea at dusk, when the temperature drops the flowers open and naturally infuse the tea leaves with their aroma. This ancient process produces an orangey-gold tea with an elegant aroma and distinct floral flavour.

### LAPSANG SOUCHONG

Originally only made in the Fujian province of China, Lapsang Souchong is still produced following the ancient method. Leaves are plucked and then withered in bamboo baskets above pinewood embers. This process creates Lapsang's unmistakable smoky flavour and bold aroma.

### PEPPERMINT

Bright and zingy, our peppermint infusion contains only the vibrant green leaves from the peppermint herb. Naturally caffeine-free and deeply refreshing, peppermint has been used in ancient medicine for centuries and is said to help aid digestion.

### ROOIBOS

Rooibos, sometimes known by the English translation 'Red Bush', only grows in the sun-drenched, mountainous Western Cape province of South Africa. This naturally caffeine-free infusion is deep red in colour and has a sweet and nutty flavour with a hint of caramel.

### STRAWBERRIES & CREAM

Strawberries & Cream is a rich and fruity infusion inspired by the classic flavours of British summer. Real strawberry pieces are blended with the flavour of creamy vanilla for a delicious taste that is full of character and naturally caffeine-free.

## AFTERNOON TEA

Indulge in a slice of one of the finest British traditions and take Afternoon Tea.
