Rutherford Breast Clinic North East

Providing fast-tracked diagnostic investigations and results

Our **Triple Assessment Breast Clinic** at the Rutherford Cancer Centre North East provides quality and rapid breast care services, supported by our specialist consultants, and dedicated clinical teams. We ensure you get access to scans and treatment options with a quick turnaround time.

The one-stop clinic allows fast access for patients who have noticed recent changes in their breast, such as a breast lump, nipple discharge or inversion and breast pain.

Get in touch to book your appointment today

RAPID AND FLEXIBLE APPOINTMENTS

Appointments can be offered within 48 hours, twice weekly clinics, at a time to suit you and your results will be available within 48-hours from your diagnostic appointment.

FIRST-CLASS DIAGNOSTIC SERVICES

We house some of the most sophisticated and accurate diagnostic imaging technology available. We offer mammography, ultrasound, biopsy and MRI services to help identify any abnormalities.

ACCESS TO A TREATMENT MANAGEMENT PATHWAY

Most breast lumps are benign, but it is always best to get them checked by a specialist consultant. Our Breast Clinic provides direct access to a dedicated oncology treatment pathway should you need it.
