

Programme Specification

1. Overview / Factual information

Programme / award title(s)	BSc (Hons) Business Management (Marketing)
Teaching institution	The University Centre Peterborough (UCP)
Awarding institution	The Open University (OU)
Date of first OU validation	May 2021
Date of latest OU (re)validation	N/A
Next revalidation	May 2026
Credit points for the award	360
UCAS Code	N260
HECoS Code	100075
LDCS Code (FE Colleges)	
Programme start date and cycle of starts if appropriate.	September 2022
Underpinning QAA subject benchmark(s)	Business and Management
Other external and internal reference points used to inform programme outcomes. For apprenticeships, the standard or framework against which it will be delivered.	Chartered Institute of Marketing (CIM) Local Enterprise Partnership or equivalent: Cambridgeshire & Peterborough Independent Economic Review.
Professional/statutory recognition	Chartered Institute of Marketing (CIM)
For apprenticeships fully or partially integrated assessment.	N/A
Mode(s) of Study (PT, FT, DL, Mix of DL & Face-to-Face) Apprenticeship	FT, PT
Duration of the programme for each mode of study	3 years in full time mode 4 years in part time mode
Dual accreditation (if applicable)	N/A
Date of production / revision of this specification	May / July 2021

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided.

More detailed information on the learning outcomes, content, and teaching, learning and assessment methods of each module can be found in student module guide(s) and the student's handbook. The accuracy of the information contained in this document is reviewed by the university and may be verified by the Quality Assurance Agency for Higher Education.

2.1 Educational Aims and Objectives

- To provide a comprehensive foundation in business management practice, based on QAA benchmarks and professional standards, for students wishing to pursue a career in specialised or general business careers.
- To meet local, and national need for skills in business management.
- Support students in developing a range of transferable skills and competencies needed to cope with a rapidly changing environment.
- Encourage a systematic approach to problem solving.
- Develop the student as an independent learner capable of sustaining project work both individually and in team settings.
- Provide the student with a knowledge-base that will enable them to develop a career within business and management.
- To promote access to further progression within Higher Education.

2.2 Relationship to Other Programmes and Awards

The four BSc (Hons) business pathways sits alongside a Foundation Degree (FD) at our Stamford campus. The FD has been designed to include important work-based elements, but also provides a natural and scaffolded progression to level 6 and independent study should students wish to 'top-up' to BSc (Hons) Business Management.

Students completing the BSc programmes can progress onto a range of level 7 programmes including but not limited to Human Resources, Marketing, Finance, Economics, Leadership and Management.

2.3 For Foundation Degrees, please list where the 60-credit work-related learning takes place. For apprenticeships an articulation of how the work based learning and academic content are organised with the award.

N/A

2.4 List of all Exit Awards

- Certificate of Higher Education (Cert HE) in Business Management upon successful completion of a minimum of 120 credits at level 4
- Diploma of Higher Education (Dip HE) In Business Management upon successful completion of a minimum of 240 credits at levels 4 and 5.
- Ordinary Degree (BSc) in Business Management upon successful completion of a minimum of 300 credits (60 credits at level 6).

3. Programme Structure and Learning Outcomes					
BSc (Hons) Business Management (Marketing)

Intended learning outcomes at level 4 are listed below:

Learning Outcomes – Level 4	
3a. Knowledge and Understanding	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
A1 Describe and explain organisations in terms of their internal functions and processes and diverse nature, size, structure, markets within which they operate and the external factors that influence and exert influence upon them.	<p>A diverse and dynamic range of teaching and learning strategies are utilised to meet the knowledge-based learning outcomes of this level. These include:</p> <ul style="list-style-type: none"> • Traditional methods of lectures supported with seminars. • Practical workshops. <p>Lectures provide the guiding theme for subject areas within the discipline, directing and coordinating learning as well as responding to student needs for detailed explanation and demonstration. Lectures also provide an opportunity for students to develop a sense of community and establish the learning culture of the cohort.</p> <p>Seminars and practical sessions allow students to develop analytical and practical skills. These sessions provide a moderated reference for group behaviour where students can gain the confidence for independent learning by making their own contributions to the understanding of the subject.</p> <p>A broad range of assessment methods are utilised at this level to assess knowledge and understanding. These will include traditional assessment methods like course work essays, presentations, and exams; to forms of assessment that align with or simulate, those found in industry e.g. reports, product demonstrations and group assessments/appraisals.</p> <p>The programme also utilises formative assessment with a view to supporting students take responsibility for their learning.</p>
A2 Describe and explain the principles of marketing in order to influence stakeholders.	
A3 Evidence a broad understanding of Human Resource Management, the management and development of people in order to meet organisational goals and the legal implications in HR management.	
A4 Explain management and leadership theories, models and frameworks and recognise that these are knowledge bases that are open to ongoing debate and reformulation.	
A5 Describe and explain the sources, uses, and management of financial information for planning, control, decision making and managing financial risk.	

3b. Cognitive Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
B1 Integrate resilient business strategies into a holistic and cohesive understanding of the blueprints for the businesses that they will manage in the future.	A diverse and dynamic range of teaching and learning strategies are utilised to meet the intellectual, learning outcomes of this level. These include traditional lectures and seminars but also practical workshops.
B2 Identify the concepts and principles underlying the business theoretical framework and strengths and weaknesses to solve business related problems.	Seminars and practical sessions allow students to develop analytical and practical skills. These sessions provide a moderated reference for group behaviour where students can gain the confidence for independent learning by making their own contributions to the understanding of the subject.
B3 Research business topics, making critical judgements based on a sound knowledge base, and design appropriate reports from the analysed and synthesised data.	<p>Various modules provide a learning environment where specific skills are taught and demonstrated on simple problems before providing less well specified problems that allow a greater range of solution strategies.</p> <p>A broad range of assessment methods are utilised at this level to assess cognitive learning outcomes. These include traditional assessment methods like course work essays, presentations, and exams; to forms of assessment that align with or simulate, those found in industry e.g. product demonstrations, group evaluations. Exams and in-class tests are utilised for testing and developing students' problem-solving abilities under pressure. Formative assessment methods are used to enable learners to reflect on their academic progress and their career aspirations.</p>

3c. Practical and Professional Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
C1 Select information from a variety of authoritative sources, analyse and evaluate data, sources of information and methodologies for evidenced-based decision making.	<p>A diverse and dynamic range of teaching and learning strategies are employed to meet the practical and professional learning outcomes of this level. These include traditional lecture and seminar approaches to practical workshops and group learning environments.</p> <p>Various modules provide a learning environment where specific skills are taught and demonstrated on simple problems before providing less well specified problems that allow a greater range of solution strategies.</p> <p>A broad range of assessment methods are utilised in this course to assess practical and professional skills from traditional essays and exams to reports and product demonstrations. Technical areas such as analysis, design and networking are assessed within modules through a variety of techniques that are appropriate to the subject area and provide feedback on subject specific skills.</p>
C2 Work collaboratively with others to create effective teams and recognise the factors that affect team performance.	
C3 Communicate effectively including the ability to produce clear, structured business communications in a variety of media.	

3d. Key / Transferable skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
D1 Work independently, acting on their own initiative on a project where they are responsible for setting realistic goals, meeting deadlines, responding to feedback, and taking appropriate remedial action where necessary.	<p>A diverse and dynamic range of teaching and learning strategies will be utilised to meet the affective and transferrable learning outcomes of this course.</p> <p>All modules are supported by a VLE which helps to disseminate material and encourages feedback through discussion groups. This also helps to establish a wider sense of audience and the skills needed for interaction in a virtual environment. Students of different abilities can gain from taking different paths through material and can get instant feedback through online tests and peer review.</p> <p>A broad range of assessment methods will be utilised in this course to assess affective transferable skills. These include demonstrations, presentations and group assessments.</p>
D2 Respond to feedback and criticism and reflect on their own career aspirations through a widening knowledge of business career options.	
D3 Use interpersonal and communication skills to clarify tasks and identify issues in a range of contexts.	

Certificate of Higher Education (Cert HE) in Business Management upon successful completion of a minimum of 120 credits at Level 4

BSc (Hons) Business Management (Marketing)

Programme Structure - Level 5 Full Time					
Compulsory Modules	Credit Points	Optional Modules	Credit Points	Is Module Compensatable?	Semester Runs In

Intended learning outcomes at level 5 are listed below:

Learning Outcomes – Level 5	
3a. Knowledge and Understanding	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
A1 Understand supply chain strategy frameworks and the allocation of resources for operations management for an organisation.	<p>A diverse and dynamic range of teaching and learning strategies are utilised to meet the knowledge-based learning outcomes of this level. These include:</p> <ul style="list-style-type: none"> • Traditional methods of lectures supported with seminars. • Practical workshops. <p>Lectures provide the guiding theme for subject areas within the discipline, directing and coordinating learning as well as responding to student needs for detailed explanation and demonstration. Lectures also provide an opportunity for students to develop a sense of community and establish the learning culture of the cohort.</p> <p>Seminars and practical sessions allow students to develop analytical and practical skills. These sessions provide a moderated reference for group behaviour where students can gain the confidence for independent learning by making their own contributions to the understanding of the subject.</p> <p>A broad range of assessment methods are utilised at this level to assess knowledge and understanding. These will include traditional assessment methods like course work essays, presentations, and exams; to forms of assessment that align with or simulate, those found in industry e.g. reports, product demonstrations and group assessments / appraisals.</p> <p>The programme also utilises formative assessment with a view to supporting students take responsibility for their learning.</p>
A2 Demonstrate knowledge of the influence culture, politics and power have on the behaviour of others in an organisational context.	
A3 Evidence an understanding of a range of tools and techniques that can be employed to maximise brand value and explore commercial opportunities to innovate the product life cycles	
A4 Analyse the theory of the development of individuals and teams and how that can support organisational growth.	
A5 Establish a project with aims, objectives and timeframes based on the chosen theme and conduct small-scale research, to be able to draw meaningful conclusions to be communicated in appropriate format.	

3b. Cognitive Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
B1 Can recognise competing perspectives of principles and concepts of business management and analyse and communicate these to appropriate target audiences.	A diverse and dynamic range of teaching and learning strategies are utilised to meet the intellectual, learning outcomes of this level. These include traditional lectures and seminars but also practical workshops.
B2 Can undertake research with limited supervision to provide new information and data or explore existing information and data to analyse patterns and relationships in business management.	Seminars and practical sessions allow students to develop analytical and practical skills. These sessions provide a moderated reference for group behaviour where students can gain the confidence for independent learning by making their own contributions to the understanding of the subject.
B3 Selects, synthesises, analyses and compares alternative information/data/evidence in order to inform a choice of solutions to unfamiliar business management contexts.	Various modules provide a learning environment where specific skills are taught and demonstrated on simple problems before providing less well specified problems that allow a greater range of solution strategies.
B4 Uses a variety of techniques and methodologies to critically evaluate and discriminate between relevant and significant data/evidence appropriate to complex business management concepts.	A broad range of assessment methods are utilised at this level to assess cognitive learning outcomes. These include traditional assessment methods like course work essays, presentations, and exams; to forms of assessment that align with or simulate, those found in industry e.g. product demonstrations, group evaluations. Exams and in-class tests are utilised for testing and developing students' problem-solving abilities under pressure. Formative assessment methods are used to enable learners to reflect on their academic progress and their career aspirations.

3c. Practical and Professional Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
C1 Develop appropriate informed policies and strategies in a changing business environment, to meet stakeholder needs and use risk management techniques to maximise business achievement of strategic objectives.	A diverse and dynamic range of teaching and learning strategies are employed to meet the practical and professional learning outcomes of this level. These include traditional lecture and seminar approaches to practical workshops and group learning environments.
C2 Recognise the importance of the use of digital technology in support of business information systems and demonstrate their ability to engage with digital technology to aid business objectives and work in a collaborative digital environment.	Various modules provide a learning environment where specific skills are taught and demonstrated on simple problems before providing less well specified problems that allow a greater range of solution strategies.
C3 Engage with practical and professional skills and be aware of ethical issues in business management.	A broad range of assessment methods are utilised in this course to assess practical and professional skills from traditional essays and exams to reports and product demonstrations. Technical areas such as analysis, design and networking are assessed within modules through a variety of techniques that are appropriate to the subject area and provide feedback on subject specific skills.
C4 Review feedback and future personal development in career options to develop future strategies for employment in business management.	

3d. Key / Transferable Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
D1 Adapt communication methods with peers, experts and /or senior colleagues in different situations and environments.	A diverse and dynamic range of teaching and learning strategies will be utilised to meet the affective and transferrable learning outcomes of this course. All modules are supported by a VLE which helps to disseminate material and encourages feedback through discussion groups. This also helps to establish a wider sense of audience and the skills needed for interaction in a virtual environment. Students of different abilities can gain from taking different paths through material and can get instant feedback through online tests and peer review. A broad range of assessment methods will be utilised in this course to assess affective transferable skills. These include demonstrations, presentations and group assessments
D2 Create, use, share and repurpose digital content as appropriate for communication while adopting a responsible and ethical approach in industry.	
D3 Work independently to find, critically evaluate and use a wide range of information, data or tools accurately in a variety of varying complex contexts.	

Diploma of Higher Education (DipHE) in Business Management upon successful completion of a minimum of 240 credits at Levels 4 and 5.

BSc (Hons) Business Management (Marketing)

Programme Structure - Level 6 Full-Time

		Professional Placement	15	Yes	Y2 S2
		Preparation for Postgraduate Study	15	Yes	Y4 S2

Students must choose one Undergraduate Major Project and one Research Skills module

Intended learning outcomes at level 6 are listed below:

Learning Outcomes – Level 6	
3a. Knowledge and Understanding	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
A1 Produce a systematic, coherent and detailed portfolio of knowledge and understanding of competing leadership paradigms within global contexts. Critically apply knowledge and understanding of a range of leadership models and methods to their own and other's leadership practice.	<p>A diverse and dynamic range of teaching and learning strategies are utilised to meet the knowledge-based learning outcomes of this level. These include:</p> <ul style="list-style-type: none"> • Traditional methods of lectures supported with seminars. • Practical workshops. <p>Lectures provide the guiding theme for subject areas within the discipline, directing and coordinating learning as well as responding to student needs for detailed explanation and demonstration. Lectures also provide an opportunity for students to develop a sense of community and establish the learning culture of the cohort.</p> <p>Seminars and practical sessions allow students to develop analytical and practical skills. These sessions provide a moderated reference for group behaviour where students can gain the confidence for independent learning by making their own contributions to the understanding of the subject.</p>
A2 A systematic understanding of the complexities of effective strategies employed by organisations when critically assessing the opportunities for growth and the risks involved.	
A3 Critically evaluate marketing theories and concepts to develop appropriate business solutions, through an extended piece of research.	
A4 Produce a systematic critique of key theories, concepts and issues in international entrepreneurship, with a focus on the analysis of the global business environment in which international entrepreneurs operate.	

<p>A5 Consistently demonstrates a business specialist area in depth on a research project with minimal supervision, showing systematic understanding of business theory, concepts and frameworks interrelated with other fields of study to identify complex business issues, synthesise and evaluate to make recommendations and solutions and present their project.</p>	<p>A broad range of assessment methods are utilised at this level to assess knowledge and understanding. These will include traditional assessment methods like course work essays, presentations, and exams; to forms of assessment that align with or simulate, those found in industry e.g. reports, product demonstrations and group assessments / appraisals.</p>
<p>A6 Evaluate and apply different marketing strategies depending on context and strategic aims.</p>	<p>The programme also utilises formative assessment with a view to supporting students take responsibility for their learning.</p>

3b. Cognitive Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
B1 Synthesise, critically evaluate and challenge information, arguments and assumptions from different sources, including current research and scholarship, in accordance with the theories, concepts and principles of business management.	<p>A diverse and dynamic range of teaching and learning strategies are utilised to meet the intellectual, learning outcomes of this level. These include traditional lectures and seminars but also practical workshops.</p> <p>Seminars and practical sessions allow students to develop analytical and practical skills. These sessions provide a moderated reference for group behaviour where students can gain the confidence for independent learning by making their own contributions to the understanding of the subject.</p> <p>Various modules provide a learning environment where specific skills are taught and demonstrated on simple problems before providing less well specified problems that allow a greater range of solution strategies.</p> <p>A broad range of assessment methods are utilised at this level to assess cognitive learning outcomes. These include traditional assessment methods like course work essays, presentations, and exams; to forms of assessment that align with or simulate, those found in industry e.g. product demonstrations, group evaluations. Exams and in-class tests are utilised for testing and developing students' problem-solving abilities under pressure. Formative assessment methods are used to enable learners to reflect on their academic progress and their career aspirations.</p>
B2 Select and apply your knowledge and understanding to a wide range of the principal professional skills, techniques, practices and/or materials associated with business management, including in contexts with a degree of unpredictability and/or specialism.	
B3 Appreciate the potential uncertainty, ambiguity and limits of knowledge in business management.	
B4 Select and use accurately established techniques of analysis and enquire outside the context in which they were first studied and be aware of their limitations.	

3c. Practical and Professional Skills	
Learning Outcomes:	Learning and Teaching Strategy / Assessment Methods
C1 Critically engage, as appropriate, with practical and professional skills and demonstrate an awareness of relevant responsible and ethical issues in business management.	<p>A diverse and dynamic range of teaching and learning strategies are employed to meet the practical and professional learning outcomes of this level. These include traditional lecture and seminar approaches to practical workshops and group learning environments. Various modules provide a learning environment where specific skills are taught and demonstrated on simple problems before providing less well specified problems that allow a greater range of solution strategies.</p> <p>A broad range of assessment methods are utilised in this course to assess practical and professional skills from traditional essays and exams to reports and product demonstrations. Technical areas such as analysis, design and networking are assessed within modules through a variety of techniques that are appropriate to the subject area and provide feedback on subject specific skills.</p>
C2 Regularly review current situation and future personal development, career and work options, and develop strategies to address factors that may limit choices.	
C3 Recognise the importance of developing both technical and non-technical skills and of learning from feedback and self-reflection.	
C4 Work collaboratively and determine team / leadership structures in order to achieve business management objectives in a variety of complex contexts.	

3d. Key / Transferable Skills		
Learning Outcomes:		Learning and Teaching Strategy / Assessment Methods
D1	Identify, interpret and solve complex problems appropriate to business management.	<p>A diverse and dynamic range of teaching and learning strategies will be utilised to meet the affective and transferrable learning outcomes of this course.</p> <p>All modules are supported by a VLE which helps to disseminate material and encourages feedback through discussion groups. This also helps to establish a wider sense of audience and the skills needed for interaction in a virtual environment. Students of different abilities can gain from taking different paths through material and can get instant feedback through online tests and peer review.</p> <p>A broad range of assessment methods will be utilised in this course to assess affective transferable skills. These include demonstrations, presentations and group assessments</p>
D2	Reflect on the appropriateness and effectiveness of the problem-solving processes used and identify some key principles which may be relevant in future situations.	
D3	Use a combination of formal, logical planning processes and an understanding of context to identify relevant information and risks and be able to identify alternative strategies and resources.	
D4	Present or communicate, formally or informally, information about specialised topics in a way which is appropriate to the purpose and audience, and which encourages the sharing of ideas and different perspectives.	
D5	Critically and effectively engage in the use of academic language and literacy practices in order to effectively engage with the academic knowledge and skills of Level 6 study.	

Ordinary Degree (BSc) in Business Management upon successful completion of a minimum of 300 credits (60 credits at Level 6).

4. Distinctive Features of the Programme Structure

Where applicable, this section provides details on distinctive features such as:

- Where in the structure above a professional / placement year fits in and how it may affect progression.
- Any restrictions regarding the availability of elective modules.
- Where in the programme structure students must make a choice of pathway / route.

We acknowledge that during the first year of any degree programme, students learn a lot about their strengths, weaknesses and aspirations. In maintaining a common core at level 4, we can permit students to transfer between the Business Management, Marketing and HR pathways on completion of level 4. All students study Academic and Business Skills, alongside Global Business Context, Insight into Economics, Insight in to Marketing and People Planet and Profit.

There are, in total, 135 credits with a distinct Finance focus, 60 credits with a marketing focus and 105 credits with an HR focus. In line with UCP's vision of an interdisciplinary curriculum that encourages innovation and collaboration, the business school is adopting a 'matrix' approach that has worked well within our social science school. Students from different pathways mix to share ideas during lectures before being split into smaller seminar groups to reflect on module content in a more focussed way related to their specialism.

Throughout each pathway there is a skills development focus, which enables us to scaffold learners towards becoming independent and autonomous learners and skilled employees. At Level 4 this includes Academic and Business Skills, a module designed to help students adjust to higher education culture and develop good academic practice. At Level 5 the Research and Employability Skills module requires students to audit their skillset and encourages engagement with an online employability portal with content including CV and interview preparation, psychometric testing and commercial awareness.

At Level 6 we prepare students for progression via two modules:

- 1) The Undergraduate Major Project – students can choose a practical or research focus for their capstone project.
- 2) Research Skills – a taught module during which students further explore and deploy research skills for professional practice or prepare for postgraduate research practice.

Taken together these modules comprise the professional skills and work-related component of the programme.

* Where transfer away from, or onto, the Finance pathway is necessary, transfer should be undertaken prior to commencement of level 5. This is the point at which there is a distinct differentiation of course content. Any student transferring onto Finance should study Fundamentals of Financial

and Management Accounting in order to align to CIMA requirements. Deferring at least one level 5 will then be necessary to prevent an overloaded module 'diet': Transfer must only take place after full consultation with the Student Support and Academic teams, and within the bounds of the Academic Regulations.

5. Support for Students and Their Learning

Whilst studying at UCP, students are provided with academic support through a variety of mechanisms. Regular tutorial sessions are built into all courses delivered at UCP to provide students with the opportunity to access specialist support from their lecturers. Sessions provide both group and one to one assessment support for students, allowing them to gain formative feedback on work and discuss their overall performance on the course and address any welfare concerns. Each tutorial scheme has learning partnership as its core theme, with the level 4 tutorial scheme focussing on preparing to study and academic skills, level 5 on developing skills and autonomy and level 6 on progression and transferrable skills. Tutors have an open office policy and the HE Managers host a daily student surgery so that concerns can be addressed promptly.

UCP also offers an additional Study Excellence programme which students can access if further support is required in developing more generic academic and employability skills. A series of optional lunch-time sessions covers issues such as developing academic writing techniques, undertaking effective academic research to support dissertations, and forming coherent and well-structured arguments.

To further underline the importance that UCP places on the development of these skills, the institution used the revalidation of the ARU provision to introduce a new approach to developing Academic Skills into each year of the revised courses, either as stand-alone modules or through embedding the content into other relevant modules. The module aims to formalise the topics delivered within the Study Excellence programme, providing students with academic credit for completing the modules.

Commencing for all new entrants in 2019, modules at Level 4 introduce and develop the underpinning skills required for Higher Education study, with each year that follows providing a more contextual focus on the academic skills required in the discipline. An example of a distinct module which has been developed to achieve this is the Academic and Professional Skills for Social Scientists which is a core module for all students on social science degrees.

UCP also offers additional English as an Additional Language (EAL) lunchtime sessions for students who need extra help to articulate their ideas effectively. In common with Study Excellence, these sessions are available to any student who wishes to improve their grades; not just those at the lower end of the grade profile. Statistical analysis has evidenced that students who habitually use UCP's EAL support from the start of their studies achieve a higher classification than those who decline the support.

Following a successful trial within the BA (Hons) Psychosocial Studies course, UCP has adopted an approach to offer peer support to students via a Vertical Mentoring Scheme. It was initially identified that mature students were less likely to participate in extracurricular activities due to external commitments, yet extracurricular activities enhance student experience and performance. The Vertical Mentoring Scheme was established to try to improve mature student engagement. Initially, level 6 students mentored level 4 students over lunch times. They were fully trained to scaffold support and provide effective mentoring. Subsequently, alumni mentors took over this role and provided help and guidance to levels 4, 5 and 6. Qualitative feedback revealed improved engagement in activities on and off campus. Statistical analysis of grade profiles and NSS satisfaction highlighted substantial improvements. Due to its success, the scheme was introduced into a variety of other undergraduate courses in 2019 and has been formally recognised as an area of focus within the UCP Teaching and Student Outcomes Strategy.

A dedicated Student Support Team ensures that there is easy access to a variety of services which can support students throughout their studies at UCP. The Student Support Officer and Student Advisor ensure that the evolving needs of students in academic, pastoral and professional contexts can be supported. The team, working closely with the Student Officer, provides information and guidance on issues surrounding employability (explained further below), mental health, mitigations and extensions, and financial management, via a range of activities from one to one advice sessions to large scale organised events. Issues surrounding the support of students are carefully considered at a number of institutional committee meetings, with updates and statistical reporting (on elements such as correlations in late submissions, number of extensions etc.) being consistently provided at Student Engagement Learning and Teaching Committee and Academic Board.

To further enhance the institution's interaction with local industry representatives, an Employer and Community Consultative Group was established in March 2019. The group, which evolved from the HE Steering Group, provides crucial input into how the curriculum will develop to ensure that UCP is producing employment-ready students, in subjects with recognised skills gaps in the local and regional economy. Initially chaired by the Chair of the UCP Council, the guidance provided by the group will be heard directly by the senior authority at UCP, ensuring that the voice of employers is carefully considered when planning new courses or initiatives.

6. Criteria for Admission

72 UCAS points with at least one qualification in a computing related subject:

- A-levels (CDE or BC)
- BTEC (MPP)
- Cambridge Technicals (MPP)
- Access to HE (45 credits)

GCSE English Language and Mathematics at a minimum of grade C or grade 4.

If English is not your first language you will require a recognised Level 2 English Language qualification or an IELTS score of 6.0 (with 5.5 minimum in each skill) or an equivalent English Language qualification.

Admission to the programme is also possible for mature students without formal qualifications but with equivalent professional experience. This is called Accreditation of Prior Experiential Learning and it is demonstrated through the production of a portfolio of your experiential learning. Full details are available at the following link;

<https://www.ucp.ac.uk/policies/>

7. Language of Study

English

8. Information About Non-OU Standard Assessment Regulations (Including PSRB Requirements)

The Marketing pathway is accredited by the Chartered Institute of Marketing (CIM). One third of module learning outcomes on the Business Management (Marketing) are related directly to marketing, as per our agreement CIM. 17% of the marketing pathway features group work assessment, below CIM's 30% threshold. Students are thus able to apply for two exemptions towards their Certificate in Professional Marketing. The course is differentiated from the 'core pathway' by the inclusion of Integrated Marketing Communications (Level 5) and Public Relations and Marketing in the Digital Age (Level 6) modules.

(See table in Annexe 2 for existing PSRB and PSRB that the programmes are mapped to and that we are in the process of applying for).

9. For Apprenticeships in England End Point Assessment (EPA).

10. Methods for evaluating and improving the quality and standards of teaching and learning.

The University Centre Peterborough has 25 years' experience of delivering HE courses. Where the delivery team are not appropriately qualified at the level they will be teaching, they have many years of previous professional experience in their specialist field and some work part time as consultants.

Each member of staff has consistently been graded in observations as good or better by the UCP / Peterborough College Quality Department over the last 5 years. The department performs annual inspections for all subjects and also offers personal developmental coaches to improve and maintain teaching and learning standards. In addition, HE Managers at UCP conduct quality walk-ins during each semester to ensure consistent quality of provision.

When a module is delivered across two campuses there will be an identified Module Leader. This will ensure quality assurance processes are robust and any issues identified by the External Examiner can be managed effectively. The identified Module Leader will then convey any updates changes to any other delivery staff linked / responsible for the same module at the other campus.

The Module Leader will ensure marking and feedback is of the same standard by the internal moderation processes. The Module Leader will share creation of learning resources etc with the other tutor delivering the same module at the other campus and they will collectively write assessments which will be the same across campuses. There may be a separate VLE page due to timetabling etc. Library resources are purchased for all on the programme so this will ensure consistency of the student experience.

The course team will also have regular planning meetings and ensure that any issues, training needs, quality matters and student feedback is responded to in a timely and documented manner. This will be closely monitored by the Academic Office and HE Managers. Student feedback is also monitored via our committee structures.

Staff development is available at UCP /Peterborough and Stamford Colleges at least three times a year and staff actively take part in training events (e.g. ethics, scholarly writing and use of new technologies). Each new member of staff at UCP undergoes training and induction by the HE Managers. HE Staff also participate in Learning Teaching and Assessment meetings once a month to share good practice.

UCP has a Learning and Teaching lead for Higher Education to oversee the training needs of staff and to mentor and support applications for Higher Education Academy fellowship.

All the team attend the annual UCP HE Learning and Teaching Conference which focuses on developing pedagogical skills. In addition, module evaluation surveys are undertaken per semester, however the team regularly ask for feedback on module in class, via the student rep and at Student Engagement, Learning and Teaching meetings. This way modules can be constantly adapted to student feedback if appropriate.

11. Changes Made to the Programme Since Last (Re)Validation
