WHAT IS WAKAF? ISLAMIC ENDOWMENT

**Simply put,
it is a lasting
contribution
to benefit the
community in
various ways.**

Prophet (PBUH) said:

“ When the son of Adam dies, his actions come to an end except for three; sadaqah jariyah (ongoing charity), knowledge which brought benefit, and a pious child who makes supplication for him. ”

Narrated by Abu Hurairah in Sahih Muslim

Charitable endowment in the form of,

Property

Must be objectified and can be transferable.

Owned by the donor and can be of benefit or serve a purpose

Perpetually be used for charity

Wakaf (endowment) is a voluntary donation from one's personal belongings or wealth, to be used for shariah compliant causes. Waqaf is one of the forms of sadaqah jariyah mentioned in the hadith above.

HOW DOES IT **BENEFIT YOU & OTHERS?**

HOW DOES IT *BENEFIT YOU?*

Wakaf is enormously beneficial for your hereafter, ensuring the influx of good deeds even after death, so long as the donated property or items are being used.

On top of that, you get to be a life-changing force empowering people to live a fulfilling life. Waqaf can also be done on behalf of the deceased, so it can be a beneficial gift for your loved ones who are no longer with us.

HOW DOES IT *BENEFIT OTHERS?*

By doing wakaf, you are providing underprivileged people around the world with things that are essential to life, growth, and happiness.

With their basic needs accounted for, they are empowered to pursue their own livelihoods to the fullest and end the vicious cycle of poverty.

OUR WAKAF PROJECTS

There are many ways to help the needy through wakaf. We have a range of projects, each intended to sustain and benefit them over a long period of time.

WAKAF WATER WELL

\$325
PER WATER WELL

The Messenger of Allah was asked,
“ **What is the best charity?** ”

He replied:
“ **Giving water** ”

Narrated by Sa'd ibn Ubadah in
Sunan Abu Dawud

One of the biggest challenges faced by
developing countries is the lack of access to
clean water.

Often, they would have to resort to open water
sources that are usually contaminated, leading
to the spread of water-borne diseases. As such,
building and digging water wells, are an ideal
solution for villages in remote areas with no
water infrastructure in place.

Join us in our mission to build water wells for the
poorest communities in Sri Lanka, Bangladesh,
Cambodia, Pakistan and Myanmar to make
clean water accessible. You can help build a
water well and provide clean, drinking water
that can last for ten years or more!

**For every Wakaf Water Well donation you make,
you will receive the following upon completion
(within 3-6 months):**

- 1 Certificate**
- 2 Report**
- 3 Photos & Videos**

What GER has done so far:
**3,013 Water Wells built in 5
countries** - providing more than
10,000 underprivileged people
with safe, accessible clean water.

WAKAF COMMUNITY WATER WELL

\$950
PER WATER WELL

Sa'd ibn 'Ubadah reported,

I said, " O Messenger of Allah, my mother has died. Shall I give charity on her behalf? "

The Prophet (PBUH) said, " Yes "

I said, " Which charity is best? "

The Prophet said, " Water. "

Narrated in Nasai

Drinking contaminated water is one of the most common causes of death in the developing world – but, one of the most preventable. Another wakaf project is to build Community Water Wells equipped with six taps, a generous washing area, a water tank and an electrical pump to draw water that can benefit a whole community.

Each well is shared with 10 families - which means almost 50 people will benefit from each community water well. When a community gets water, women and girls get their lives back. They start businesses, improve their homes and take charge of their futures. Women and children don't have to walk for miles to collect – often dirty – water.

The average distance that women and children walk to collect water in Africa and Asia is 3.7 miles, carrying around 20 litres of water. Now – just think of what your community water well charity can do for the people of Cambodia. Your charity will change lives, insyaAllah.

For full Wakaf Community Water Well donation, you will receive the following upon completion (within 3-6 months):

- 1 Certificate
- 2 Report
- 3 Photos & Videos

Over the years, GER have **built 109 Community Water Wells**, providing over 5,000 villagers with safe, accessible clean water.

WAKAF ABLUTION PLACE

\$950
PER ABLUTION
PLACE

The Prophet (PBUH) once said,

“ Allah will aid a servant (of His) so long as the servant aids his brother. ”

Narrated by Abu Hurairah in Sahih Muslim

In many underprivileged Muslim communities, mosques and madrasahs are small and lack adequate facilities. Water is also often scarce, so taking ablution and purifying oneself for prayer becomes difficult.

We aim to solve this problem by building ablution places near these rural mosques and madrasahs in Cambodia and Sri Lanka. Your donation will benefit the whole community and enable them to practice their religion. You to receive a portion of their rewards in the Hereafter.

For full Wakaf Ablution Place donation, you will receive the following upon completion (within 3-6 months):

- 1 Certificate**
- 2 Report**
- 3 Photos & Videos**

282 Ablution Places were built for the Muslim community over the years. You have managed to provide more than 2,000 Muslims with adequate mosque facilities.

WAKAF QUR'AN

\$20
PER QUR'AN

The Messenger of Allah (PBUH) said,

“ The best of you is the one who learns the Quran and teaches it. ”

Narrated by Uthman ibn Affan in Sahih Bukhari

Sadly, for many Muslims in living in poverty, circumstances lead to them being unable to find even one copy of the Qur'an. Let us help those less fortunate to learn and read the Qur'an. Reading the Qur'an is an important part of our religion and our spirituality. By reading the words of Allah swt, we build a bond with Him and strengthen His presence in our hearts.

Our Wakaf Al-Quran programme aims to help any institutions, madrasahs, tahfiz, orphans, schools and masjids around the world who require the mushafs. We have a vision to provide 100,000 free Qur'an to the most needy all over the world.

With your support over the years, people in Indonesia, Cambodia, Sri Lanka, Myanmar, Pakistan, Uganda, Kenya, Mali, Gambia and Syrian Refugees were able to learn and read the words of Allah.

So far, over **12,311 Qur'ans** have been distributed to the poor and needy who do not have access to them.

WAKAF DIGITAL BRAILLE QUR'AN

\$185
PER DIGITAL
QUR'AN BRAILLE

The Prophet (PBUH) said,

“ The example of he (a believer) who recites the Quran is like that of a citron which tastes good and smells good. ”

Narrated by Abu Musa Al-Asha'ri in Sahih Bukhari

Indonesia has one of the highest rates of visually handicap people in the world. An estimated 2 million people suffer visual impairment, with about 70,000 of them being children.

For these people, it is extremely costly to purchase the Quran in braille. They are robbed of the chance to learn the words of Allah and build a closer connection to Him. Our Digital Braille Qur'an gives them the chance to study the Qur'an as we do.

They can listen to all the Surahs using the digital pen, using braille to find each Surah by name.

Thank you for your contributions. Together, we **distributed 1,200 Digital Braille Qur'ans** to the visually impaired in Indonesia in the last 3 years.

Each book also includes the 30th chapter of the Qur'an written in braille for them to read.

Help us to give them a chance to learn the Qur'an too.

F

WAKAF MOSQUE

The Messenger of Allah (PBUH) said,

“Whoever builds a mosque for Allah, Allah will build for him a house just like it in Paradise.”

Narrated by Uthman ibn Affan in Sahih Bukhari

The mosque is the heart of any Muslim community. Providing much more than a place of worship, it offers education and a base from which essential community services are delivered. Together with our international partners, we have built new mosques and reconstruct damaged mosques in several countries.

You can donate the whole cost of the masjid or part of it. It is an excellent form of Sadaqah Jariyah (continuous charity) as the donor can expect to receive rewards as long as people worship there. Help build a mosque and you would receive sadaqah jariyah as the duas made there are attributed to those who supported the construction of the mosque.

Full Sponsorship

The real cost depends on the mosque's location.

Small: \$18,000 - \$20,000
Medium: \$25,000 - \$30,000
Large: \$50,000 - \$60,000

Monthly Sponsorship

The Mosque Project

\$5,000 per small mosque

For full Wakaf Masjid donation, you will receive the following upon completion (within 3-6 months):

- 1 Naming Rights of Mosque
- 2 Certificate
- 3 Report
- 4 Photos & Videos

Together, we have successfully **built 25 Mosques and refurbished 5 Mosques.** Your contribution helped the less fortunate communities **in 9 countries.**

WAKAF SCHOOLS / MADRASAHS

DONATION FROM
\$100

The Messenger of Allah was asked,

“Whoever travels a path in search of knowledge, Allah will make easy for him the path to Paradise.”

Narrated by Abu Darda in Sunan Abu Dawud

Education is important however many children do not have the opportunity to go to school to learn. In rural areas of developing countries, there are severe absence of basic infrastructure and facilities.

We aim to build a conducive place and environment for the children to learn. The cost required to build or reconstruct a school is between \$25K to \$30K as it depends on the country and location.

We rectify this by building new madrasahs in these communities or refurbishing old ones and upgrading their conditions. With your generous support, we have reconstructed 3 schools in Cambodia so far.

Thank you for helping hundreds of young Muslims receive the education they deserve. Your donation means contributing to the building blocks of a happy childhood and a brighter future.

To date, we have built
3 Madrasahs in Cambodia
thanks to donors like you!

MA'HAD IBNU SINA INTEGRATED BOARDING SCHOOL

Ma'had Ibnu Sina was built after the earthquake and Tsunami disaster struck Aceh, way back in 2004.

It is an integrated Islamic boarding school to educate poor orphans and underprivileged children victims, who have lost their parents and families.

The school is located southwest of Aceh in the Kuala Batee district.

The Prophet (PBUH) said,

" I and the caretaker of an orphan will be in Paradise like this, "

Indicating his forefinger and middle finger close together.

Narrated by Sahl ibn Sa'd in Sahih Bukhari

With the full support of Global Ehsan Relief, Ma'had Ibnu Sina's Integrated Boarding School has now changed its name to Ma'had Ibnu Sina Global Ehsan Relief (ISGER), with the motto of Science, Adab, Amal, Taqwa.

We have undertaken the bold decision to continue with the vision of its founders to form young Muslim scholars with noble morals and the ability to contribute and strive in the modern world.

WAKAF ORPHANS HOME

DONATION FROM
\$100

The Messenger of Allah said,

“ Whoever embraces an orphan of two Muslim parents by feeding him and giving him drink until he is independent of him, Paradise will certainly be necessary for him. ”

Narrated by Malik ibn Al-Harith in Musnad Ahmad

All children should have the comfort of a home, and someone to nurture them and provide for them while they make their way through childhood.

Sadly, many do not have the privilege of such things and make do with the hardships that come with being one of the millions of orphaned or abandoned children.

Orphanages and homes are often overcrowded and understaffed, which means that the children receive very little time and attention. Our goal is to build a warm and welcoming home that will provide all the necessities for these children.

Our first orphan home will be in Johor Bahru and will accommodate 20 orphan girls as well as 2 live-in caretakers. Additionally, our orphan homes will have an in-house Tahfiz Program that will enable the children to learn and memorise the Quran.

We plan for this to be the first of many orphan homes around the world. By donating, you are helping to give these orphans the childhood they deserve and easing the burdens that they face.
