BUILD A MOSQUE

Mosques are at the heart of every Muslim community around the world. They play a pivotal role in education, daily worship and special occasions, serving as a space to build a bond with fellow Muslims.

Indeed, the first act of the Prophet (ﷺ) upon his arrival in Medina was to build a mosque.

Sadly, many Muslims simply do not have access to a local mosque. Some communities lost their mosques as casualties of conflict or natural disaster, while many rural areas have never had a mosque at all.

For them, the long journey to the nearest mosque is difficult, even impossible for the sick and elderly. Global Ehsan Relief aims to give remote, isolated, and impoverished communities access to their very own mosque.

Just as the Prophet (ﷺ) helped to build the first mosque in Medina, you can help build one for people who've never known the blessings of praying together in a mosque.

Importance of a Mosque

Mosques are as old as Islam itself; they are the beating heart of our community and stand as a physical example of our faith.

Many Muslims in the developing world struggle without having a proper mosque in their communities. Mosques provide a Muslim community with so much more than a simple house of worship though.

Function of a Mosque

- Create Community Hubs
- Place of Worship for Locals
- Help Setup Education Centre in Mosques
- Build a Safe Haven for the Poor & Needy

BENEFITS & REWARDS

As Muslims, we recognise the importance of these beautiful places of worship, but do you know what the special benefits of building a mosque are?

1

The Ultimate Ongoing Reward - Sadaqah Jariyah

The Prophet (ﷺ) said, when a person passes away, all his actions terminate but three; knowledge through which people benefit, Sadaqah Jariyah (continuing charity) and a pious child who makes Dua (supplication) for the parents. One of the best forms of continuous charity (Sadaqah Jariyah) is to build a mosque on behalf of your parents or loved ones.

2

A Great Place To Spread Dawah

Mosques can attract non-Muslims to Islam. Building mosques will give the local communities the opportunity to showcase Islamic culture and values to non-Muslims living in the area.

This could make them curious about Islam and its beliefs, and giving them an opportunity to find out more.

3

Uniting Communities

Communal prayer, spiritual guidance, Islamic education for children and a safe community hub are only a few of the benefits of building a mosque.

When you build a mosque for the less fortunate, you are providing them with a sturdy house of worship that will foster their moral and spiritual development for years to come.

4

Centre of Learning

Mosques are centres of learning and study of the Qur'an, Hadith and the Seerah of the Prophet (ﷺ)

5

A Place in Jannah

The Prophet (ﷺ) said, "Whoever builds a mosque, desiring thereby Allah's pleasure, Allah builds for him the like of it in paradise." [Bukhari]

A great reward for building a mosque is being granted a palace in Jannah. Allah (SWT), our benevolent creator, will reward us for building His house of worship here on earth by building us a house in paradise!

HELP US BUILD A MOSQUE

You receive the following upon the completion of Mosque construction:

1. Naming Rights
2. Completion Reports
3. Certificate
4. Pictures/Videos

HELP US BUILD A MOSQUE

2 REFURBISH A MOSQUE

Help sponsor the cost of renovating existing mosques, providing valuable new facilities and amenities that benefit the entire community. Many mosques in rural areas lack basic needs such as a water supply, or are too run-down for safe use.

INDONESIA		CAPACITY	COST
Small	8x8m ²	80	\$4,500
Medium	10x11m ²	150	\$5,500
Large	16x16m ²	350	\$6,500

Waqf Prayer Space **\$100**

[CLICK HERE TO DONATE TODAY](#)

3 WAQF OF PRAYER SPACE

While sponsoring the construction of an entire mosque might be too costly, you can also play a part in ensuring underprivileged communities have a place to perform their prayers with ease.

Donate just \$100 to build a prayer space within a mosque. You can sponsor any number of prayer spaces, or share the cost of sponsoring with your family and friends. Alternatively, you can be part of a collective effort among our GER community to build a mosque for a rural community together!

For every sujood performed, dzikir uttered, verse recited from the Holy Qur'an in that space, you will share in its rewards, insyaAllah. The community in which you have helped build the mosque will also continuously benefit.

4 OTHER WAYS TO CONTRIBUTE

In addition, you can also contribute to the maintenance of the mosque, such as the installation of the carpet, lights, fans, prayer mats and water coolers. You can also play a part in providing for the salaries of the key figures of the mosque such as the Imam, Quran Teachers and the mosque caretakers.

BREAKDOWN	COST
Flooring - Carpet Installation	\$1,000
Lights and Fans Fixtures, Prayer Mats & Water Coolers	\$1,500
Salaries for Imam, Qur'an Teachers & Mosque Caretakers	\$2,500 Per Year

YOUR IMPACT ON AR RAHIM MOSQUE

Previously, the lack of a mosque posed difficulties for residents in Chamka Chen Village, Ang Snoul District, Kandal Province. As the village tends to be more isolated and poverty-stricken, they often lack the resources to build and maintain a mosque. This prevents the Muslim community in this village from being able to gather for their daily prayers. Furthermore, without a mosque, the Muslim community has fewer opportunities to come together and build a sense of community because there is no central place for them to congregate and interact with one another. The lack of a mosque also contributes to a lack of Islamic knowledge in the area, as there is no place for people to learn about the teachings of Islam.

Brother Shukur, a representative for the people in the village, reported that they had long relied on the cowshed as a gathering place for their prayers. But on Fridays, they had to make a journey of nearly 20 kilometers to reach the nearest mosque for their Jumaah prayers. It was a difficult journey that took up precious time, resources and energy.

However, all of this changed when Global Ehsan Relief Cambodia constructed a mosque in this village. This was a tremendous relief for villagers since they could now fulfill their religious obligations without having to make a long journey.

The villagers were overjoyed when a new masjid was constructed in their community. Brother Shukur himself was in tears of joy as he could not contain his happiness. He asked Allah S.W.T. to bless and reward the donors for their generous contributions as well as grant them prosperity and mercy in this world and the Hereafter.

OUR GOALS IN ASIA & AFRICA

**AISHA MOSQUE
TANZANIA, AFRICA**

In underdeveloped or poverty-stricken countries in Asia and Africa, there is often a lack of facilities and amenities that would be useful to its citizens. There is widespread hunger, they have little to no access to clean water, and there is an absence of schools. Left without any means to tackle these situations, they hope for the kindness of international donors who can improve their lives.

Our goal to build mosques for these communities is to provide them with amenities that will allow them to attain what they've been missing. Not only will they receive a place for worship, the mosque will act as a community hub for locals, where they can get together and discuss the needs of their community.

It will be a place where children and adults alike can attend classes, religious or otherwise. With ablution places in the mosque compound, the community can collect water and utilise it for their own needs. Furthermore, by building mosques in Asia and Africa, you will be providing a safe place for children to have Islamic education and values.

Aside from mosques, Global Ehsan Relief has also carried out a lot of other charity work in Asia and Africa. We have built water wells, orphanages, schools, and provided meals and food aid for thousands of families. You can help provide more long-term assistance by building a mosque for them.

OUR TESTIMONIES

Akmal Daud

An-Nur Mosque | Aceh, Indonesia

I am a freelance social worker. The residents of village Buket Dara Baroe are mostly local farmers who are poor. Only one-third of this land is owned by the actual residents, while the rest are owned by the rich who were generous enough to let us make a life for ourselves on this land.

Alhamdulillah, with the support of Global Ehsan Relief, the villagers now have a community centre in the form of the beautiful Masjid An-Nur. The village leaders and I are committed to improving the quality of people's lives in this village. InshaAllah we will set a curriculum for Qur'anic learning for children, and invite trainers from the city to help women gain new skills. Thank you Global Ehsan Relief and all donors for making this possible.

Muhammad Rizal

Baitul Izzah Mosque | Aceh, Indonesia

I've been living in this village (Buket Batee Badan) my whole life. I currently work as a cocoa farmer. About 2 years ago, the community here felt the need to build a mosque of our own because otherwise we would have to commute for hours to the nearest mosque for jemaah prayers.

We collected wood and laboured over the construction of a humble structure that we could call our own mosque. Now, we are very grateful that we finally have a proper and beautiful mosque as a place for our family to learn Al-Qur'an and perform ibadah.

Thank you very much Global Ehsan Relief for your support. May Allah bless you and protect you from harm.
