How You Have Help To Make A Difference

Alhamdulillah, our Ehsan Ramadhan 2021 campaign went successfully with the execution of multiple projects including food aid distribution, wakaf, zakat, Eid gifts, and more.

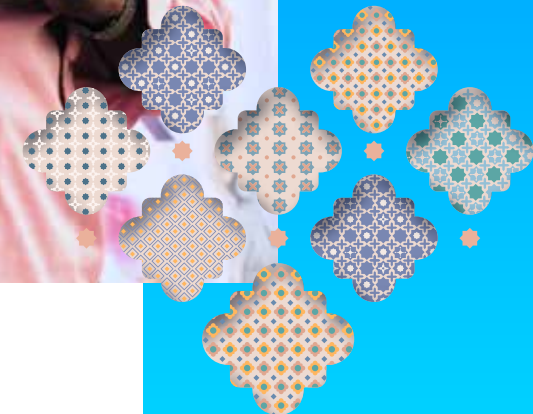

Through the generosity of our donors and the efforts of our teams and partners, Global Ehsan Relief provided aid which benefitted 63,470 people in 28 different countries.

This Ramadhan, many communities around the world are still vulnerable to the effects of a global pandemic. With economies affected, the poor and needy are struggling even more to make ends meet. Refugees in displacement camps are relying even more on humanitarian aid.

Food aid and iftar meals are one of the most crucial aid we deliver in the month of Ramadhan, to ensure that our beneficiaries have food to eat, giving them a peace of mind and allowing them to focus on the things that make Ramadhan special - worship and time with family.

Wakaf projects were also implemented in the month of Ramadhan. Sets of Qur'an and Qur'an Braille were distributed, giving beneficiaries the chance for tadarrus.

Wakaf water projects such as water wells, community water wells, and ablution places were constructed to provide clean drinking water.

Global Wakaf Projects

QUR'AN

Our wakaf projects are ongoing even in the month of Ramadhan, where your sadaqah becomes even more meaningful.

5,949 sets of wakaf Qur'an were distributed in six countries: Rohingya refugees, Uganda, Kenya, Mali, Cambodia, and Indonesia.

They were distributed in rural villages, where they either have limited or zero access to the Qur'an and have learned it through verbal transmission. Thanks to these wakaf Qur'an, they can now recite from a mushaf.

QUR'AN BRAILLE

500 sets of wakaf braille Qur'an digital were distributed in Indonesia. 300 in Jakarta, 200 in Yogyakarta. They were donated to institutions for the visually impaired who have been learning to recite and understand the Qur'an, but have not been able to afford to obtain more copies of a Qur'an Braille which tend to be costly. As a result, they don't have enough materials to go around and the students have had to rely on the schools' limited resources.
