CARE FOR ORPHANS

Our Orphan Sponsorship programme allows us to look after the welfare and care for orphans around the world. With a monthly or annual sponsorship, you will be able to provide for a child's education, daily meals and health expenses. To date, we have more than 1,000 orphans under our care, with 629 orphans undergoing special Hifz Quran lessons led by experienced teachers throughout the duration of the sponsorship.

CARE FOR CLEAN WATER

With access to clean water and proper sanitation, underprivileged individuals are able to focus on education, farming and business, rather than spend hours looking for a water source. Access to clean water also leads to food security. With less crops being lost, hunger is also reduced. With clean drinking water, communities are healthier and are able to work.

WATER WELLS

Alhamdulillah, GER have been able to continue building water wells and provide water to rural communities, with each community water well being able to serve five families. Just providing clean water can aid these communities in breaking the poverty cycle that they are in.

MDM MUSAMA'S STORY

I am a mother of six children. There are 12 of us living in this household.

Previously, my husband had kidney health issues but he is much better now.

To earn an income, I have been working as a food seller and travels from one village to another, and even from office to office in the city. It takes about an hour by Gojek from my village to the city. On average, I can earn Rp. 100,000 a day.

The food aid pack that we received will help lessen our burden for the next couple days. I am very thankful for it, Alhamdulillah.

NAUFAL'S STORY

I feel very honored to be able to be involved in the CIP trip to Aceh. So I learnt a lot, built up my own skills and built up my confidence. Our hard work was able to ease their burden, which makes me happy that I was part of the program.

My most memorable moment was visiting the orphans and spending time with them, as it was my very first time experiencing this. Normally, when we have our distribution in Singapore, we would just distribute hampers and have a little chat to find out how they're doing. As for the program in Aceh, we had the opportunity to go beyond that by having a bonding session with the orphans and learning more about them.

I would highly encourage those who are interested in joining to take their first step and join now. It's an eye-opening experience for me to experience first-hand the living conditions of people living in rural areas of Indonesia. I would like others to experience the same regardless of which country they go to, and be mentally prepared with an open heart before you join.
