IMPORTANCE OF QURBAN

To provide the neediest communities with fresh and nutritious meat. Qurban season also helps to support economies in impoverished countries, as many farmers there rely on their earnings from the sale of livestock to sustain them for months to come.

We helped to implement Qurban in 35 countries this year, all across Asia, the Middle East, and Africa. We especially focused on providing Qurban aid packages to orphan families and refugees.

By performing the sunnah of Udhiyyah (sacrifice), which is highly encouraged, not only do you gain immeasurable rewards in the Hereafter, you also help to feed impoverished communities all around the world. By doing the Prophetic Qurban, you've also doubled your rewards and ensured that even more people receive the gift of food this Eid.

QURBAN PROCESS

01

We work with trusted partners around the world to ensure that your Qurban is done in accordance with Syariah and best practices.

1. SELECTION & PROCUREMENT

Our teams and partners in each country visit local farms a few days prior to Eid ul-Adha to hand-pick the livestock that will be slaughtered. They examine the animals and ensure that only the healthiest ones which match the requirements for Qurban are chosen.

02

2. SLAUGHTER & PACKAGING

The animals are sacrificed at local mosques, courtyards or slaughterhouses, by experienced personal who adhere to Islamic guidelines when carrying out the slaughter of animals. The meat is then weighed and packed into 1-2kg packets for distribution.

03

3. DISTRIBUTION

The packed meat is then delivered to the beneficiaries' villages or camps, and distributed accordingly. Our beneficiaries include the poor, needy, orphans, widows, refugees, IDPs (internally displaced people) and the elderly.

YOUR QURBAN IMPACT

ASIA

Over half of all malnourished people in the world live in Asia. As the world's most populous continent, Asia is home to more than 500 million people living with food insecurity. The majority of them are from rural areas, where poverty is a vicious cycle and access to nutritious food is difficult.

This year, your Qurban donations helped to feed beneficiaries in 12 Asian countries. The largest Qurban program in the region took place in India's West Bengal region, where over 500 animals were sacrificed. The meat here was distributed across hundreds of poor Muslim villages.

Our Qurban program also included the Rohingya refugees in Bangladesh, underprivileged Muslim communities in Nepal, and other rural communities struggling with extreme poverty.

YOUR QURBAN IMPACT

AFRICA

It's long been known that African countries are among the worst affected by poverty and hunger. On top of economic challenges, this year Africa also faced one of its worst climate disasters in recent history, leaving 346 million people hungry in the wake of devastating droughts.

This year, your Qurban helped to feed 74,250 beneficiaries in 16 African countries. Your generosity provided them with nutritious food to sustain them for at least the next month.

Our largest program this year was in Mali and Somalia, central and western African countries of Cameroon, Central African Republic, Chad, Malawi, Somalia and Somaliland where 1,210 goats and 118 cows were sacrificed, feeding hundreds of poor and orphaned families for the days of Eid, alhamdulillah.

YOUR QURBAN IMPACT

MIDDLE EAST

With conflicts raging across many of its countries, and a pandemic making things worse, the Middle East is facing a severe food insecurity crisis.

An estimated 52 million people in the region are chronically undernourished, 34 million of whom are from conflict-affected countries like Syria, Gaza and Yemen where our largest Qurban program took place. The meat of these animals brought smiles to thousands of surviving families still recovering from the devastating effects of war.

Alhamdulillah, your Qurban donations eased the burdens of our beneficiaries by supplying them with fresh meat and nutrition.

A total of 6 Middle Eastern countries benefited from your generosity.

ASNIDAR

QURBAN STORY, ACEH

I live with my mother and two daughters in an old wooden house in Jambo Ayee, Northern Aceh, Indonesia.

Mawaddah, my youngest daughter (14 years old), sadly suffers from a severe blood disorder (thalassemia). She needs blood transfusions twice a month, which affects her schooling as she needs time off to rest and recover.

Despite that, Mawaddah wants to keep studying as she hopes to become a doctor one day!

I am the sole breadwinner of the household, having lost my husband years ago. I work odd jobs such as tailoring, washing clothes, and more to support my family.

Alhamdulillah, we receive government aid that helps us financially with Mawaddah's medical treatments. With the little income I have, I rarely buy meat; instead we usually eat rice, vegetables, and sometimes fish.

I am deeply grateful for the Food Aid and Qurban meat that Global Ehsan Relief brought us. Alhamdulillah, with the Qurban meat I plan to make rendang for my family to enjoy!

I would like to say a huge thank you to them for their help. I pray for them to be blessed with good health and a long life, and showered with blessings.

FAIZA

QURBAN STORY, NEPAL

I'm a student from Madrasah Jama Makhdumiya Umme Habiba, residing in Shahpur, a village situated south of Pokhariya, Nepal. The school provides accommodation for up to 70 students, however it's not equipped with a library or computers, and the hostel's toilets are not in the best condition.

When I return back home, I continue to revise for my studies and help with the house chores. I aspire to be a Hafizah (someone who has memorized the Qur'an) one day in shaa Allah.

My father works as a mechanic to provide for our family of ten. Unfortunately, the monthly income is not enough to cater to the needs of our big family.

On a daily basis, we only survive on vegetarian food such as lentil soup and bread. Only on some days when we have a bit extra, we will splurge on chicken as it is much cheaper than meat.

Alhamdulillah, I am extremely happy to receive the Qurban meat this year. We are beyond grateful to Global Ehsan Relief and to the donors for the generous donation.

YAHYA

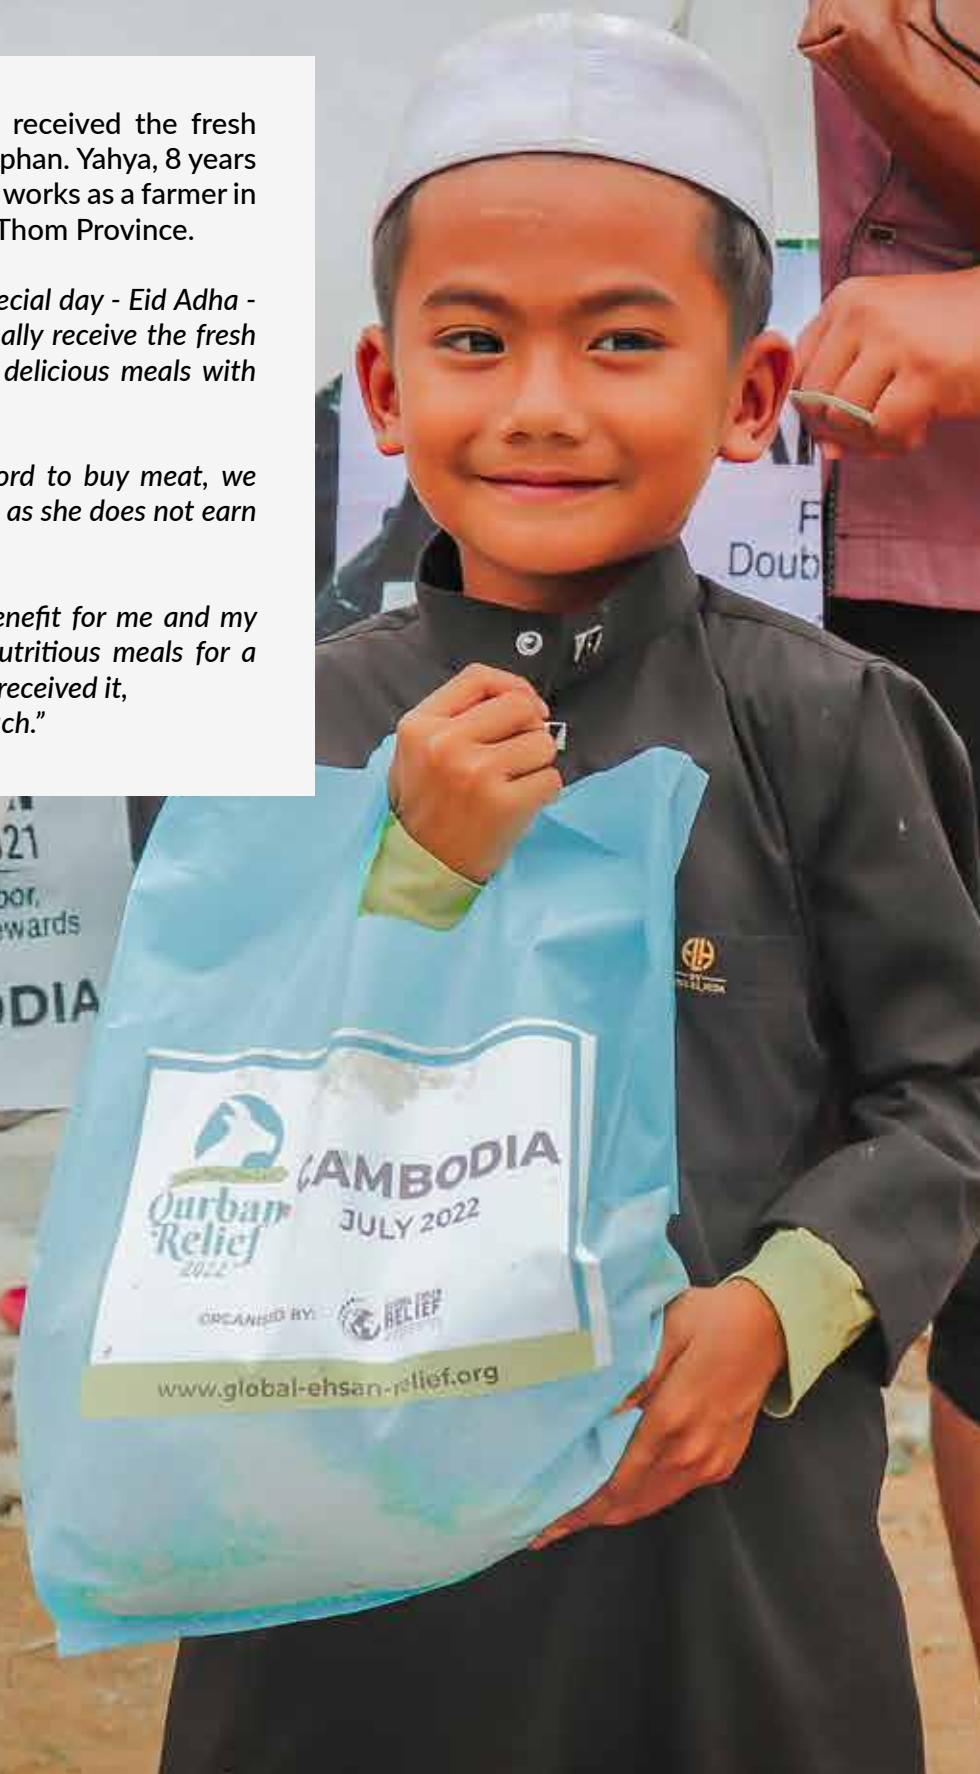

QURBAN STORY, CAMBODIA

One of the village kids who received the fresh Qurban meat this year is an orphan. Yahya, 8 years old, lives with his mother who works as a farmer in O-Sainjom Village, Kampong Thom Province.

"I have been waiting for this special day - Eid Adha - to arrive. I was delighted to finally receive the fresh Qurban meat and enjoy some delicious meals with the beef."

My mother usually cannot afford to buy meat, we rarely get to eat beef or mutton as she does not earn much in a month.

The Qurban meat is a huge benefit for me and my mother because I can enjoy nutritious meals for a while. I felt so much joy when I received it, Alhamdulillah, thank you so much."

MOHAMED

QURBAN STORY, SRI LANKA

"The situation in this country is awful and we are facing an economic crisis. Due to that, meat is becoming increasingly expensive for us. Most of the time, we eat less than three meals a day.

Other than food, we are also experiencing numerous challenges.

Thank you for providing our community with Qurban meat during this critical period. It means a lot to my community and my family, alhamdulillah.

May Allah S.W.T. repay you for all your good deeds."
