## 1. MOSQUE CONSTRUCTION

3 mosques were recently completed during this period. One is located in Tanzania (Ar-Rahmah Mosque) and the remaining two are located in Cambodia (Al-Huda and An-Nur Mosque). These mosques can accommodate at least 200 people each for congregational prayers.

## 2. MOSQUE REFURBISHMENT

In August, our GER Indonesian team oversaw the completion of our 5th refurbished mosque in Aceh. Masjid Riyadussalihin is located in Matang Jurong village, Aceh Utara. Now, the refurbished mosque has new features, facilities and Quran for the jemaah's use and can accommodate up to 400 people. Previously, the locals had to walk 5km to the nearest mosque to perform their daily and jumaah prayers.

### 3. COMMUNITY WATER WELLS

GER's newest project will benefit 1,550 people. A total of 31 community water wells were built in Takeo province, Cambodia. Each community water well can benefit 10-15 families or 50 people per well. Lasting up to a decade or more, this new source of clean and safe drinking water will provide for various uses among the community there.

### 4. WATER WELLS - HANDPUMPS

A total of 167 water handpumps were constructed during this quarter.  
97 in Cambodia  
35 in Pakistan  
35 in Bangladesh.

Each water well can benefit 1-3 families, providing them with clean drinking water for the next 10 years or more. Water changes everything.

## 5. ABLUTION PLACE

Alhamdulillah, a total of 31 abluton places were built during this period.  
16 in Cambodia  
15 in Sri Lanka.

Each abluton place is located near a mosque, benefitting approximately 500 people daily for their daily prayers and Quran recitations.

## 6. WAQAF QUR'AN

In August 2020, 375 of the Holy Qur'an were distributed in Aceh, Indonesia. The distribution was held at 12 different locations in TPA (Taman Pendidikan Alquran), TPA Sabilunnajah, Taqarrub Mosque, Pesantren Darul Huffadz, TPA Al Akbar, which are in Aceh Tenggara, Indonesia. Each person received their own mushaf or copy or the Qur'an. They were distributed to the poorest community and students at various mosques, Islamic boarding schools and Quranic centres.

## 7. WAQAF QURAN BRAILLE DIGITAL

35 units of Digital Qur'an Braille were distributed to a special school for the disabled in August. In September 2020, another 68 units were distributed to the visually impaired. This distribution was held in Bandung, West Java. 59 units were given out to the students in SLBN A Pajajaran Bandung, a special school for people with disabilities, and another 9 to individuals with disabilities. Total, 103 sets were distributed during this period.

# Global Healthcare

Ehsan Maternity Ward  
Mlalo, Tanga, Tanzania

**Total Beneficiaries: 16,200**

Meanwhile, in northeastern Tanzania in the remote village of Tanga - the construction of the Mlalo Health Centre maternity ward was completed. The population in Lushoto are among the poorest in Africa - with 80% of them living on less than \$50 a month. This means they are unable to seek medical attention as and when they require. And due to insufficient funding, construction of the maternity ward was ceased. Over the years, these factors resulted in high mortality rates for women and children.

Alhamdulillah, thanks to your donations, the ward managed to be completed! The ward can now serve 45 patients a day. This totals up to 16,200 patients a year who can receive the care and treatment they need for free. It is our hope that this maternity ward will benefit generations of mothers and children to come.

In early September 2020, monsoon floods inundated Pakistan's cities. It is said that this year, Pakistan has seen the most intense monsoon rain in years, washing away homes and contaminating clean water. This made it difficult for families to even prepare a meal for themselves. Alhamdulillah, a total of 1,000 hot meals for and 500 sets of clothes were distributed in Karachi, Pakistan. These were mainly for those affected and had their homes and belongings destroyed.

## 5. BANGLADESH

Bangladesh, too, has been hit by a critical situation since June 2020, as monsoon floods follow a super-cyclone. More than 9 million people were affected. On top of poverty and COVID-19, the flood made conditions worse in Bangladesh. With the help of our partners on the ground, 400 food aid packs were distributed in Nilphamari District, Dimla Village. Each food aid pack can last a family of 5-7 for a month. It consists of rice, cooking oil, vegetables, condiments and other basic essentials.
