

GLOBAL WAQF PROJECTS

Waqf making was recommended, approved and practiced by Prophet ﷺ and the noble Sahaba (companions) r.a. and the generations that followed.

WHAT IS WAQF? ISLAMIC ENDOWMENT

Prophet SAW said:

“ When the son of Adam dies, his actions come to an end except for three; sadaqah jariyah (ongoing charity), knowledge which brought benefit, and a pious child who makes supplication for him. ”

Narrated by Abu Hurairah in Sahih Muslim

Charitable endowment in the form of,

- Property
- Must be objectified and can be transferable
- Owned by the donor and can be of benefit or serve a purpose
- Perpetually be used for charity

Waqf (endowment) is a voluntary donation from one's personal belongings or wealth, to be used for shariah compliant causes. Waqf is one of the forms of sadaqah jariyah mentioned in the hadith above. Simply put, it is a lasting contribution to benefit the community in various ways.

HOW DOES IT BENEFIT YOU?

Waqf is enormously beneficial for your hereafter, ensuring the influx of good deeds even after death, so long as the donated property or items are being used. On top of that, you get to be a life-changing force empowering people to live a fulfilling life. Waqf can also be done on behalf of the deceased, so it can be a beneficial gift for your loved ones who are no longer with us.

HOW DOES IT BENEFIT OTHERS?

By doing waqf, you are providing underprivileged people around the world with things that are essential to life, growth, and happiness. With their basic needs accounted for, they are empowered to pursue their own livelihoods to the fullest and end the vicious cycle of poverty.

OUR WAQF PROJECTS

There are many ways to help the needy through waqf. We have a range of projects, each intended to sustain and benefit them over a long period of time.

\$585	\$395	\$345	\$285
ELECTRIC DEEP	HYBRID WELL	ELECTRIC SHALLOW	HAND PUMP

The Messenger of Allah ﷺ was asked, **“What is the best charity?”** He replied: **“Giving water ”**

Narrated by Sa’d ibn Ubadah in Sunan Abu Dawud

One of the biggest challenges faced by developing countries is the lack of access to clean water. Often, they would have to resort to open water sources that are usually contaminated, leading to the spread of water-borne diseases.

As such, building and digging water wells are an ideal solution for villages in remote areas with no water infrastructure in place.

Join us in our mission to build water wells for the poorest communities in Sri Lanka, Bangladesh, Cambodia, Pakistan and Myanmar to make clean water accessible. You can help build a water well and provide clean, drinking water that can last for ten years or more!

For every Waqf Water Well you make, you will receive the following upon completion (within 3-6 months):

- 1 Certificate**
- 2 Report**
- 3 Photos & Videos**

WAQF COMMUNITY WATER WELLS

Sa'd ibn 'Ubadah reported,

I said, "O Messenger of Allah, my mother has died. Shall I give charity on her behalf?"

The Prophet ﷺ said, "Yes"

I said, "Which charity is best?"

The Prophet ﷺ said, "Water."

Narrated in Nasai

Drinking contaminated water is one of the most common causes of death in the developing world – but, one of the most preventable. Another waqf project is to build Community Water Wells equipped with six taps, a generous washing area, a water tank and an electrical pump to draw water that can benefit a whole community.

Each well is shared with 10 families - which means almost 50 people will benefit from each community water well. When a community gets water, women and girls get their lives back. They start businesses, improve their homes and take charge of their futures. Women and children don't have to walk for miles to collect – often dirty – water.

The average distance that women and children walk to collect water in Africa and Asia is 3.7 miles, carrying around 20ℓ of water. Now – just think of what your community water well charity can do for the people of Cambodia. Your charity will change lives, insyaAllah.

For full Waqf Community Water Well, you will receive the following upon completion (within 3-6 months):

WAQF ABLUTION PLACES

\$885
ABLUTION PLACE

The Prophet ﷺ once said,

“Allah will aid a servant (of His) so long as the servant aids his brother.”

Narrated by Abu Hurairah in Sahih Muslim

In many underprivileged Muslim communities, mosques and madrasahs are small and lack adequate facilities. Water is also often scarce, so taking ablution and purifying oneself for prayer becomes difficult.

We aim to solve this problem by building ablution places near these rural mosques and madrasahs in Cambodia and Sri Lanka. Your donation will benefit the whole community and enable them to practice their religion. You receive a portion of their rewards in the Hereafter.

For full Waqf Ablution Place donation, you will receive the following upon completion (within 3-6 months):

WAQF QUR'AN

\$20
PER QUR'AN

The Messenger of Allah ﷺ said,

“The best of you is the one who learns the Qur’an and teaches it”

Narrated by Uthman ibn Affan in Sahih Bukhari

Sadly, for many Muslims in living in poverty, circumstances lead to them being unable to find even one copy of the Qur’an. Let us help those less fortunate to learn and read the Qur’an.

Reading the Qur'an is an important part of our religion and our spirituality. By reading the words of Allah SWT, we build a bond with Him and strengthen His presence in our hearts.

Our Waqf Al-Qur’an programme aims to help any institutions, madrasahs, tahfiz, orphans, schools and masjids around the world who require the mushafs. We have a vision to provide 100,000 free Qur’an to the most needy all over the world.

With your support over the years, people in Indonesia, Cambodia, Sri Lanka, Myanmar, Pakistan, Uganda, Kenya, Mali, Gambia and Syrian Refugees were able to learn and read the words of Allah SWT.

WAQF BRAILLE QUR'AN - TRADITIONAL & DIGITAL

\$185
PER
BRAILLE

\$185
PER DIGITAL
BRAILLE

The Prophet ﷺ said,

“The example of he (a believer) who recites the Qur’an is like that of a citron which tastes good and smells good!”

Narrated by Abu Musa Al-Asha’ri in Sahih Bukhari

Indonesia has one of the highest rates of visually handicap people in the world. An estimated 2 million people suffer visual impairment, with about 70,000 of them being children.

For these people, it is extremely costly to purchase the Quran in braille. They are robbed of the chance to learn the words of Allah and build a closer connection to Him.

Our Digital Braille Qur’an gives them the chance to study the Qur’an as we do. They can listen to all the Surahs using the digital pen, using braille to find each Surah by name.

Each book also includes the 30th chapter of the Qur’an written in braille for them to read.

Help us to give them a chance to learn the Qur’an too.

F

WAQF A MOSQUE

DONATIONS FROM
\$15,000

The Messenger of Allah ﷺ said,

“Whoever builds a mosque for Allah, Allah will build for him a house just like it in Paradise.”

Narrated by Uthman ibn Affan in Sahih Bukhari

The mosque is the heart of any Muslim community. Providing much more than a place of worship, it offers education and a base from which essential community services are delivered.

Together with our international partners, we have built new mosques and reconstructed damaged mosques in several countries. You can donate the whole cost of the masjid or part of it. It is an excellent form of Sadaqah Jariyah (continuous charity) as the donor can expect to receive rewards as long as people worship there.

Help build a mosque and you would receive sadaqah jariyah as the duas made there are attributed to those who supported the construction of the mosque.

For full Wakaf Masjid donation, you will receive the following upon completion (within 3-6 months):

WAQF SCHOOLS & MADRASAH

DONATIONS FROM
\$100

The Messenger of Allah ﷺ was asked,

“Whoever travels a path in search of knowledge, Allah will make easy for him the path to Paradise.”

Narrated by Abu Darda in Sunan Abu Dawud

Education is important however many children do not have the opportunity to go to school to learn. In rural areas of developing countries, there is a severe absence of basic infrastructure and facilities.

We aim to build a conducive place and environment for the children to learn. The cost required to build or reconstruct a school is between \$25K to \$30K as it depends on the country and location. We rectify this by building new madrasahs in these communities or refurbishing old ones and upgrading their conditions. With your generous support, we have reconstructed 3 schools in Cambodia so far.

Thank you for helping hundreds of young Muslims receive the education they deserve. Your donation means contributing to the building blocks of a happy childhood and a brighter future.

MA'HAD IBNU SINA

DONATIONS FROM
\$100

The Prophet ﷺ said,

**"I and the caretaker of an orphan
will be in Paradise like this,"
Indicating his forefinger and
middle finger close together.**

Narrated by Sahl ibn Sa'd in Sahih Bukhari

Ma'had Ibnu Sina was built after the earthquake and Tsunami disaster struck Aceh, way back in 2004. It is an integrated Islamic boarding school to educate poor orphans and underprivileged children victims, who have lost their parents and families.

Traditional orphanages do not equip orphans with in-demand skills. Hence, after the age of 18, many orphans are not able to progress in life.

They are at greater risk of abuse, mistreatment and prone to exploitation such as child trafficking. With the Integrated Orphan Centre, we are able to provide the orphans with a better home, education and the support they need to grow.

With the full support of Global Ehsan Relief, while following the school motto - Science, Adab, Amal, Taqwa, we are determined to continue the mandate of its founders to form young Muslim scholars with noble morals and the ability to contribute and strive in the modern world.

Join us in lending a helping hand.
