

5-IN-1 WAQF LEGACY

Quarterly Impact Report | Give Once. Benefit Forever.

Legacy Focus

This report represents more than projects completed – it represents a legacy in motion.

Through the 5-in-1 Waqf Legacy, your contribution continues to build mosques, provide clean water, support education, and place the Qur'an into the hands of those who need it most. Every prayer performed, every sip of water taken, every lesson taught, and every verse recited continues to be part of your ongoing charity.

Thank you for being part of a legacy that continues to serve communities long after the initial donation. This quarterly report highlights the impact made possible through your waqf and the lives that continue to benefit from your generosity.

Through your waqf, mosques are built, water flows, children learn, and the Qur'an is read – creating ongoing charity that continues to benefit communities for years to come.

CEO MESSAGE

Assalamu'alaikum Warahmatullahi Wabarakatuh,

On behalf of Global Ehsan Relief, we would like to extend our heartfelt gratitude to all our donors and wakaf partners who have supported the 5-in-1 Waqf Legacy initiative.

Through your generosity, mosques are being built, clean water is flowing, children are receiving education, and the Qur'an is being read by communities and even by the visually impaired through Braille Qur'ans.

Waqf is one of the most powerful forms of charity because its benefits continue long after the initial donation. Every prayer performed, every sip of water taken, every lesson taught, and every verse recited becomes part of your ongoing reward.

Thank you for being part of a legacy that continues to serve communities around the world.

May Allah accept your waqf and make it a source of continuous reward for you and your loved ones.

Basheer Ahmad
CEO
Global Ehsan Relief

WHAT IS THE 5-IN-1 WAQF LEGACY?

The 5-in-1 Waqf Legacy is a sadaqah jariyah initiative that supports five long-term impact areas through a single wakaf contribution. Instead of supporting only one project, this wakaf model creates continuous impact across faith, water, education, and Qur'anic access.

The five wakaf pillars are:

- ◆ Building Mosques & Prayer Spaces
- ◆ Waqf Qur'an Braille
- ◆ Solar Water Stations
- ◆ Waqf Qur'an
- ◆ Schools & Madrasahs

Through one waqf contribution, donors create ongoing impact that benefits communities for many years – even generations.

QUARTERLY IMPACT SUMMARY

This Quarter By Your Waqf:

PROJECTS	QUANTITY	BENEFICIARIES
Mosques & Prayer Spaces	6	12,000
Solar Water Stations	8	4,500
Schools & Madrasahs	4	620
Waqf Qur'an	2,250	2,250
Waqf Qur'an Braille	400	400
		17,000

PROJECT UPDATES:

◆ SOLAR WATER STATIONS

Solar-powered water stations were installed in (locations), providing sustainable access to clean water for communities who previously had limited access.

8 SOLAR WATER STATIONS

4,500 people accessing clean water daily

◆ WAQF QUR'AN

Qur'ans were distributed to mosques, madrasahs, and rural communities where access to Islamic materials is limited.

2,250 WAQF QUR'AN

250 Cambodia
250 Indonesia
250 Pakistan
250 Bangladesh
250 Burkina Faso
250 Ghana
250 Nepal
250 Niger
250 Yemen

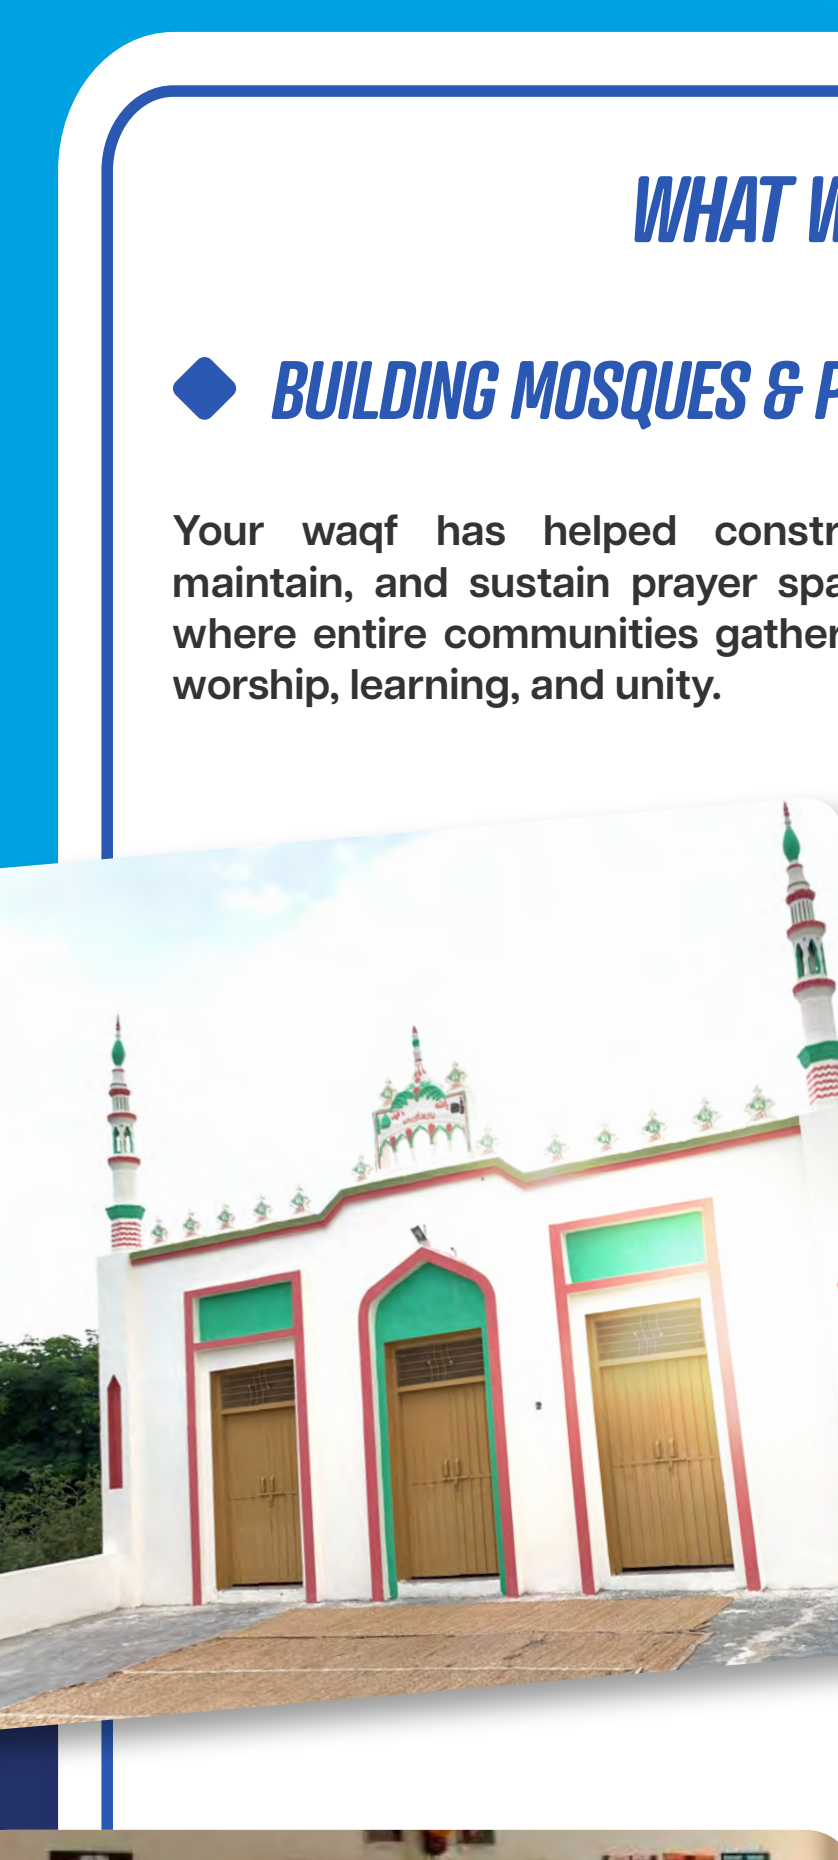

◆ WAQF QUR'AN BRAILLE

Braille Qur'ans were distributed to visually impaired beneficiaries, allowing them to read and learn the Qur'an independently.

400 WAQF QUR'AN BRAILLE

Pakistan (Braille)
Indonesia (Digital Braille)

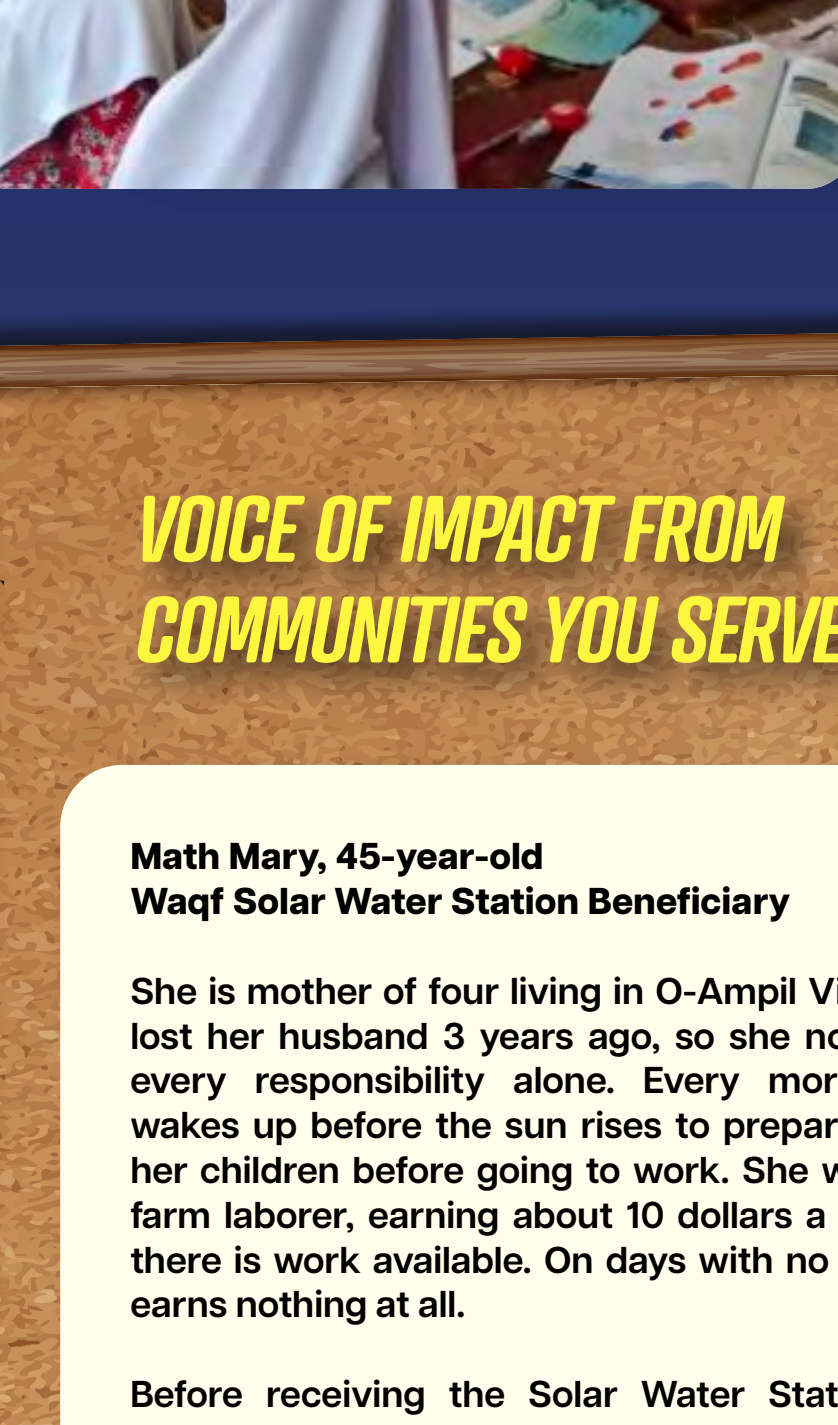

WHAT WE HAVE BUILT!

◆ BUILDING MOSQUES & PRAYER SPACES

Your waqf has helped construct, maintain, and sustain prayer spaces where entire communities gather for worship, learning, and unity.

6 MOSQUES BUILT

◆ SCHOOLS & MADRASAH

Educational facilities supported through waqf continue to provide learning opportunities for children and preserve Islamic education in underserved communities.

4 LEARNING CENTRES SUPPORTED

VOICE OF IMPACT FROM COMMUNITIES YOU SERVE

Math Mary, 45-year-old Waqf Solar Water Station Beneficiary

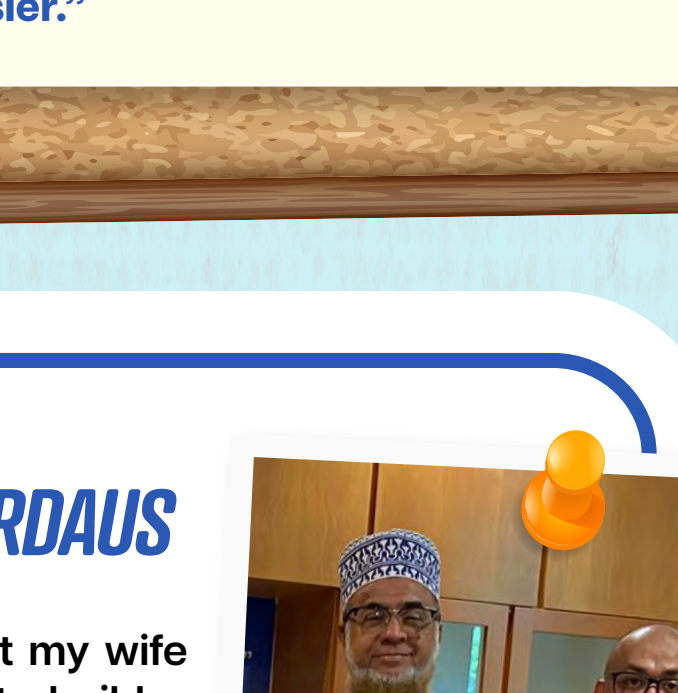

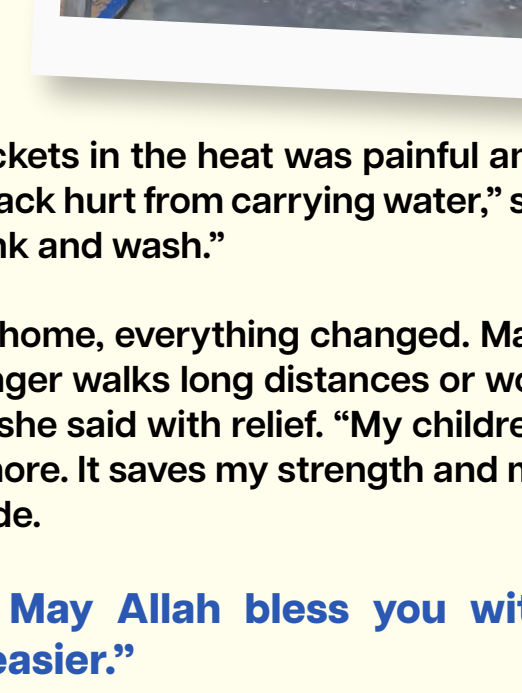

She is mother of four living in O-Ampil Village. She lost her husband 3 years ago, so she now carries every responsibility alone. Every morning, she wakes up before the sun rises to prepare food for her children before going to work. She works as a farm laborer, earning about 10 dollars a day when there is work available. On days with no work, she earns nothing at all.

Before receiving the Solar Water Station, Mary struggled every day to get water. She had to walk to the stream in the village at least twice a day.

The path was rough and slippery. Carrying heavy buckets in the heat was painful and tiring. On rainy days, the water turned muddy and unsafe. "My back hurt from carrying water," she recalled. "But I had no choice. My children needed water to drink and wash."

When the Solar Water Station was installed near her home, everything changed. Mary now has clean and safe water right at her doorstep. She no longer walks long distances or worries about giving her children dirty water. "I feel so happy now," she said with relief. "My children can drink clean water. I don't have to carry heavy buckets anymore. It saves my strength and my time." With tears in her eyes, she raised her hands in gratitude.

"Thank you to the donors for helping us. May Allah bless you with health, prosperity, and happiness. You made my life easier."

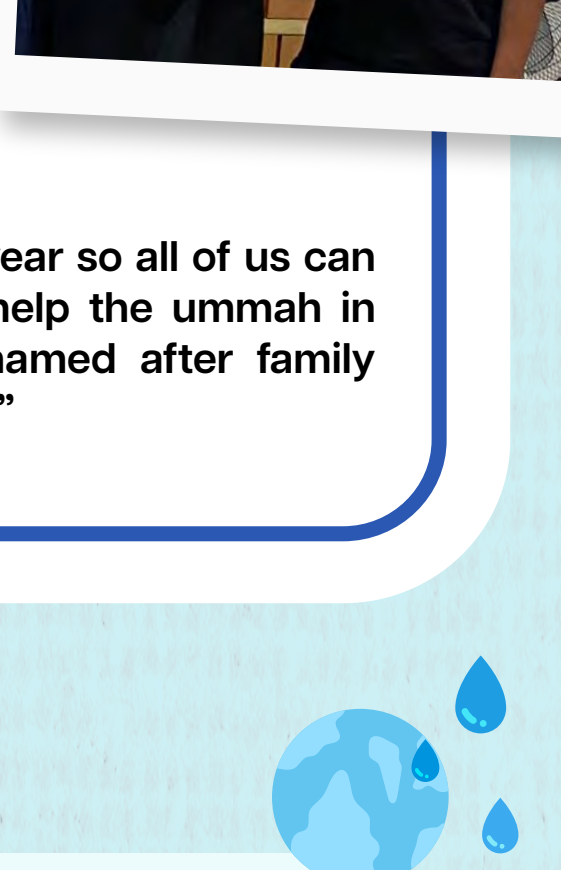

DONOR SPOTLIGHT: MUHAMAD FIRDAUS

"Alhamdulillah, this is the second mosque that my wife and I have built. It has always been our goal to build a mosque. Since we are unable to build one in Singapore, we are grateful for the opportunities available to us through Global Ehsan Relief.

The second mosque is a collective effort by our extended family of more than 70 members over 3 generations. Alhamdulillah, a small monthly contribution from each member has allowed us to raise enough funds for a medium-sized mosque in Pakistan.

In shaa Allah, we aim to continue with this effort every year so all of us can benefit from it, and we can see our collective efforts help the ummah in different parts of the world. Both the mosques are named after family members - our children, and the late leaders of our family."
