

Rarity

by Peggy Hoepfner

*In the lifetime of a person,
You can discover something rare.
At the right place, at the right time,
You find a friend is there.*

*A dear, beloved person—
Such a treasure to your being.
You know a special bond is forged;
It's a miracle you're seeing.*

*This person is your confidant.
She'll listen and she'll care.
She will give advice or be still—
Whatever you can bear.*

*The years will not change this friend,
Nor concern will endure.
Her helping hands and loving heart,
Are dependable, kind, and sure.*

*She seems to be more in tune to you,
Than to problems she may suffer.
Your tears and sorrows come first,
She's a comfort and a buffer.*

*Heaven-sent describes your friend.
A true gift from above.
A messenger from the arms of God,
She personifies joy and love.*

*Iris has been my rare friend,
I will never another know.
Who will find this place in my life?
Who will fill my heart and soul?*

*So, I offer up a prayer of thanks,
For my fortune in finding her.
God, make a place of peace and rest,
For this someone, so especially dear.*
